MEMORANDUM

TO: NFPA Technical Correlating Committee on Automatic Sprinkler Systems
FROM: Joanne Goyette
DATE: May 3, 2011
SUBJECT: NFPA 13, 13D, 13R, and 24 ROP TCC FINAL Ballot Results (A2012)

The Final Results of the NFPA 13, 13D, 13R, and 24 ROP TCC Letter Ballot is as follows:

20 Members Eligible to Vote
2 Not Returned (C. Ketner and R. Spaulding)

PART 1 (TCC Notes)

18 Affirmative
0 Negatives
0 Abstentions

PART 2 (Release of ROP)

18 Affirmative
0 Negatives
0 Abstentions

There are two criteria necessary to pass ballot [(1) affirmative $\frac{3}{4}$ vote and (2) simple majority].

- (1) The number of affirmative votes needed for the proposals to pass is **14**.
 $20 \text{ eligible to vote} - 2 \text{ not returned} - 0 \text{ abstentions} = 18 \times 0.75 = 13.5$
- (2) In all cases, an affirmative vote of at least a simple majority of the total membership eligible to vote is required. This is the calculation for simple majority:
 $[20 \text{ eligible} \div 2 = 10 + 1 = \mathbf{(11)}]$

Reasons for negative votes, etc. are attached for your review. Ballots received from alternate members are not included unless the ballot from the principal member was not received.

According to the final ballot results, all ballot items received the necessary $\frac{3}{4}$ required affirmative votes to pass ballot.
