

General Rules for Heating with a Gas Heater

1. Make sure your heating equipment is allowed in your community.
2. Have any installation done by a professional and make sure all fuel-burning equipment is vented to the outside.
3. Keep anything that can burn at least 3 feet away from your heater.
4. Have your heater inspected and cleaned every fall just before heating season.
5. Never use or store flammable or combustible liquids near or in rooms with heaters.
6. Install carbon monoxide alarms in your home.
