NFPA Safety Source

Summer Safety

Summer is in full swing. Make sure your community is safe!

Water Wise

Drowning is the second leading cause of unintentional death among children ages 1 to 4 and children 10 to 14.* Get the [facts and fun](#) activities for kids and families to learn about water safety.

Heat/Entrapment

Parents running quick errands may think their cars will remain cool, but even on mild days [temperatures inside vehicles](#) can rise to dangerous levels in minutes. A young child's core body temperature can increase three to five times faster than that of an adult, causing permanent injury or death.
