

**REPORT OF THE MOTIONS COMMITTEE**  
**ON CERTIFIED AMENDING MOTIONS**  
**FOR PRESENTATION AT THE**  
**2010 ASSOCIATION TECHNICAL MEETING,**  
**JUNE 9-10, 2010 LAS VEGAS, NV**  
**(FOR THE ANNUAL 2010**  
**REVISION CYCLE DOCUMENTS, EXCEPT FOR NFPA 70,**  
**NATIONAL ELECTRICAL CODE®)**

**I. Introduction.** This is the Report of the Motions Committee listing Certified Amending Motions that may be presented at the 2010 Association Technical Meeting in Las Vegas, NV on June 9-10, 2010. The Motions Committee, consisting of NFPA Standards Council Members J. Pauley (Chair), K. Bell, S. Clary, R. Farr, R. Gerdes and J. Jardin, has been appointed by the Chair of the Standards Council to certify proper amending motions and otherwise review and act, in accordance with 2.1 through 2.7 of the *NFPA Technical Meeting Convention Rules (Convention Rules)*, on Notices of Intent to Make a Motion (NITMAMs) that have been submitted on NFPA codes and standards (Documents), that have been processed in the Annual 2010 Revision Cycle with one exception.

The exception just mentioned is NFPA 70, National Electrical Code®. The NEC, will be the subject of a third separate Motions Committee Report to be posted by May 21, 2010. Thereafter a Consolidated Final Motions Committee Report (the Consolidated Report) will be posted on the NFPA website and available upon request. This Consolidated Report will include the three Motions Committee Reports related to the 2010 Association Technical Meeting, namely: the present Report for the Non-NEC Annual 2010 Revision Cycle Documents; the Report for the Fall 2009 Revision Cycle Documents (posted November 20, 2009), and the Report for the NEC (to be posted May 21, 2010). The Consolidated Report will contain all of the certified amending motions contained in the three base Reports. However, the Motions Committee, on review, may refine or revise the sequencing and/or grouping of previously published motions. Please check the website to obtain the Consolidated Report.

Under NFPA rules, persons wishing to make an allowable amending motion at an NFPA Technical Meeting must declare their intention to do so by filing, within the published deadlines, a NITMAM setting forth information about the intended motion. The Motions Committee, in accordance with NFPA rules, reviews each NITMAM to determine whether the intended motion is a proper motion. The Committee can also, in consultation with the submitter of the NITMAM, clarify the intent of, and, if appropriate, restate the motion, and, in certain circumstances, group motions that are dependent on each other together so that they can be made as a single motion. In addition, the Motions Committee may take such other action or make such other recommendations as will

\* In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at [www.nfpa.org](http://www.nfpa.org).

facilitate the fair and efficient consideration of motions within the available time. The Motions Committee certifies for presentation at the appropriate Association Technical Meeting all proper Amending Motions, either as submitted or as clarified, restated or grouped, as explained above. The Motions Committee then publishes a report setting forth, at a minimum, each Certified Amending Motion, the person(s) authorized to make such motions, and the recommended order in which motions should be entertained. In addition, the Report may include Motions Committee notes or comments aimed at assisting the Presiding Officer or facilitating the understanding of or the orderly and efficient consideration of the motion when presented at the Association Technical Meeting.

The Certified Amending Motions for the non-NEC<sup>®</sup> Annual 2010 Revision Cycle Documents are set forth in Part II of this report; Part III summarizes motions that were not certified by the Motions Committee; Part IV of this Report lists those “Consent Documents” in the Annual 2010 Revision Cycle that have no Certified Amending Motions. In reviewing this report, the following should be considered:

- The only Amending Motions allowed at an Association Technical Meeting are Certified Amending Motions set forth in a report of the Motions Committee and any Follow-Up Motions, that is, motions that may become necessary as a result of a previous successful Amending Motion. (See *Convention Rules* at 3.4.4.)
- Certified Amending Motions can only be made by person(s) listed in this Report as authorized to make the motion, or by persons they have designated in writing to the Standards Council Secretary as their Designated Representative. See *Regulations Governing Committee Projects (Regs.)* at 4.6.8.1.
- The Certified Amending Motions set forth in this report are proper and permissible; they will, however, only be presented for the consideration of the membership at the 2010 Association Technical Meeting if a person authorized to make the motion (or their Designated Representative) actually appears, signs in no later than one hour before the beginning of the session (see *Convention Rules* at 2.7), and makes the motion in accordance with NFPA rules.
- This Report concerns only the non-NEC<sup>®</sup> Annual 2010 Revision Cycle Documents with Certified Amending Motions for consideration at the 2010 Association Technical Meeting in Las Vegas, NV on June 9-10, 2010. As further set forth for the above, other Documents reporting to the 2010 Association Technical Meeting are treated in separate Reports.

The information presented above provides a general introduction to some of the relevant features of the NITMAM process and the presentation of Certified Amending Motions. For a full and complete understanding of the process, participants should consult the rules themselves, including the *Convention Rules* and the *Regs.* In particular, the rules concerning the submission of NITMAMS and the Certification of Amending Motions can be found at 2.0 of the *Convention Rules* and 4.5 of the *Regs.* The rules concerning membership action at Association Technical Meetings can be found, generally, in the *Convention Rules* and in 4.6 of the *Regs.* These are published in the 2010 *Annual Directory* and are available on the NFPA website at [www.nfpa.org](http://www.nfpa.org). For additional information

\* In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at [www.nfpa.org](http://www.nfpa.org).

about the NFPA codes and standards process, consult the NFPA website or contact NFPA Codes & Standards Administration Department at 617-984-7248.

**II. Certified Amending Motions.** The Motions Committee has received and reviewed NITMAMs on eight Annual 2010 Revision Cycle Documents. The Committee has determined that all eight documents have at least one certified amending motion that may be presented for action at the 2010 Association Technical Meeting. The eight documents are as follows:

NFPA 25	<i>Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems</i>
NFPA 58	<i>Liquefied Petroleum Gas Code</i>
NFPA 86	<i>Standard for Ovens and Furnaces</i>
NFPA 96	<i>Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations</i>
NFPA 204	<i>Standard for Smoke and Heat Venting</i>
NFPA 303	<i>Fire Protection Standard for Marinas and Boatyards</i>
NFPA 502	<i>Standard for Road Tunnels, Bridges, and Other Limited Access Highways</i>
NFPA 654	<i>Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids</i>

Previously, the Motions Committee had ruled that seven Fall 2009 Revision Cycle Documents have certified amending motions (see the “Report of the Motions Committee on Certified Amending Motions: Fall 2009 Revision Cycle”).

Table A summarizes the motions that have been reviewed and certified by the Motions Committee for documents processed in the Annual 2010 revision cycle for consideration at the 2010 Association Technical Meeting in Las Vegas, NV, June 9-10, 2010.

**III. NITMAMs that were not Certified by Motions Committee.**

Table B summarizes the motions for documents processed in the Annual 2010 Revision Cycle that have been reviewed by the Motions Committee and not certified. (Note that Table B only includes documents in the Annual 2010 revision cycle.)

**IV. Consent Documents.**

Where a Document in the Annual 2010 Revision Cycle receives no NITMAMs that result in one or more Certified Amending Motions, the Document is considered a “Consent Document.” A Consent Document is not presented at the Association Technical Meeting and is, instead, forwarded directly to the Standards Council for issuance. See *Regs.* at 4.5.6.

Following are the sixteen Consent Documents in the Annual 2010 Revision Cycle with proposed issuance and effective dates. The Consent Documents were forwarded directly to the Standards Council for issuance via letter ballot:

**Issuance Date – June 1, 2010, Effective Date – June 21, 2010**

NFPA 30B	<i>Code for the Manufacture and Storage of Aerosol Products</i>
NFPA 33	<i>Standard for Spray Application Using Flammable or Combustible Materials</i>

\* In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at [www.nfpa.org](http://www.nfpa.org).  
Posted: May 7, 2010 Report of the Motions Committee: June 2010 Association Technical Meeting

NFPA 34	<i>Standard for Dipping and Coating Processes Using Flammable or Combustible Liquids</i>
NFPA 40	<i>Standard for the Storage and Handling of Cellulose Nitrate Film</i>
NFPA 73	<i>Electrical Inspection Code for Existing Dwellings</i>
NFPA 87	<i>Recommended Practice for Fluid Heaters</i>
NFPA 88A	<i>Standard for Parking Structures</i>
NFPA 160	<i>Standard for the Use of Flame Effects Before an Audience</i>
NFPA 307	<i>Standard for the Construction and Fire Protection of Marine Terminals, Piers, and Wharves</i>
NFPA 312	<i>Standard for Fire Protection of Vessels During Construction, Conversion, Repair, and Lay-Up</i>
NFPA 556	<i>Guide on Methods for Evaluating Fire Hazard to Occupants of Passenger Road Vehicles</i>
NFPA 780	<i>Standard for the Installation of Lightning Protection Systems</i>
NFPA 1000	<i>Standard for Fire Service Professional Qualifications Accreditation and Certification Systems</i>
NFPA 1071	<i>Standard for Emergency Vehicle Technician Professional Qualifications</i>
NFPA 1126	<i>Standard for the Use of Pyrotechnics Before a Proximate Audience</i>
NFPA 1145	<i>Guide for the Use of Class A Foams in Manual Structural Fire Fighting</i>

**Note:** *In accordance with 1.6.2(a) of the Regs., there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the issuance of any Consent Documents listed in this report. Note, however, that unless clear and substantial reasons exist to consider such an appeal, the Standards Council “may summarily dismiss the appeal on account of the procedural failure to notice and make an appropriate motion at the Association Technical Meeting.” The final date to file any such appeal is June 16, 2010.*

**Certified Amending Motions on A2010 Documents for the June 2010 Association Technical Meeting**

**Document #1** NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems* A2010

<b>Motion Seq #</b>	<b>NITMAM Log #</b>	<b>Section/Para</b>	<b>Person(s) Authorized to Make the Motion</b>	<b>Certified Amending Motion**</b>	<b>Motions Committee Notes and Comments**</b>
25-1	725	1.1.3.1 and A.1.1.3	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Accept Comment 25-5	<p><b>Related Motions:</b> Motions 25-1 and 25-2 (Logs 725 and 717) while different in the means they employ, seek to achieve the same action. Specifically, either of the motions, if successful, would delete new 1.1.3.1 and associated annex. These motions have been certified as proper. So as to eliminate multiple debates on the same proposed action, however, the following procedure regarding the orderly and efficient consideration of the subject presented by the related motions will be in effect at the Technical Session:</p> <p>Once either of the motions is made and seconded, the other will no longer be in order, and the single motion on the floor will serve as the representative motion for purposes for debate and vote on the proposed action. All persons wishing to participate in debate on the proposed action should, therefore, do so during the presentation of the representative motion.</p>
25-2	717	1.1.3.1 (New)	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-3	
25-3	718	1.1.3.1 (New)	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-4	
25-4	726	3.3.4 Deficiency	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Accept Comment 25-11	<p>If successful, this proposed motion results in a return to the definition of “Deficiency” in the 2008 edition text as follows:</p> <p><b>3.3.4 Deficiency.</b> A condition in which the application of the components is not within its designed limits or specifications. [1071:2006]</p>

\*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA’s Regulations Governing Committee Projects.

\*\*In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

**TABLE A**  
**Certified Amending Motions on A2010 Documents for the June 2010 Association Technical Meeting**

**Document #1** NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems* A2010 (continued)

<b>Motion Seq #</b>	<b>NITMAM Log #</b>	<b>Section/Para</b>	<b>Person(s) Authorized to Make the Motion</b>	<b>Certified Amending Motion**</b>	<b>Motions Committee Notes and Comments**</b>
25-5	693	3.3.4 Deficiency and A.3.3.4	Marcelo M. Hirschler, GBH International	Accept Comment 25-13	If successful, this proposed motion results in the definition of "Deficiency" as follows: <b>3.3.4* Deficiency.</b> A condition in which a system or component is not suitable for performing its function, because either the device is not being used within its designed limits or specifications, or the device is damaged, inoperable, or in need of service.
25-6	719	4.1.2.3, 4.1.2.4, and A.4.1.2.3	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-17	
25-7	728	4.1.5 and 4.1.6	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Accept Comment 25-24	If successful, this proposed motion results in the deletion of Sections 4.1.5 and 4.1.6.
25-8	727	4.1.5.1	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Reject Comment 25-21	If successful, this proposed motion results in the deletion of Section 4.1.5.1.
25-9	730	5.2.1.4	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Reject Comment 25-36	If successful, this proposed motion seeks to add text that requires the inspector to identify areas without sprinkler protection.
25-10	720	5.2.5	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-40	
25-11	680	5.2.7	Richard M. Ray, Cybor Fire Protection Company	Accept Comment 25-41	
25-12	675	7.3.1	Kenneth E. Isman, National Fire Sprinkler Association, Inc.	Accept Comment 25-65	

\*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

\*\*In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

654-3	704	6.1 (New)	John M. Cholin, J. M. Cholin Consultants Inc.	Return a portion of a Report in the form on identifiable part of a proposal 654-15 and related comment 654-10 The identifiable part that is returned is new proposed Section 6.1.	<b>Multiple Notices for a Single Motion:</b> In regards to Motion 654-3, multiple submitters have filed NITMAMs for the same motions (Logs 704, 700, 713) which shall be treated as a Single Motion per Section 2.4 of NFPA's Convention Rules. Any of the submitters are permitted to make the motion. If successful, the proposed motion seeks to eliminate proposed new Section 6.1 which introduces a new method for determining the presence of a hazardous area (either dust flash fire or dust explosion hazard area) and return the section to the 2006 edition text.
	700		Donald Hirsch, Iron Mountain		
	713		Sam W. Francis, American Forest & Paper Association		
654-4	710	6.1.3 and 6.1.4	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-24	
654-5	711	6.1.3, 6.1.4, and 6.1.5	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-31	
654-6	702	6.1.8 [new 7.13.1.7.3]	John M. Cholin, J. M. Cholin Consultants Inc.	Accept Comment 654-33	
654-7	709	6.1.8(2)	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-36	If successful, this proposed motion would delete one of seven conditions required when air-material separator (commonly dust collectors) exhaust is to be recycled to buildings or rooms. The condition proposed for deletion is the following: 2. *Combustible particulate solids are not present in the recycled air in concentrations above applicable industrial hygiene exposure limits or 1% of the MEC, whichever is lower.
