

***REPORT OF THE MOTIONS COMMITTEE**
ON CERTIFIED AMENDING MOTIONS
FOR PRESENTATION AT THE
2013 ASSOCIATION TECHNICAL MEETING
JUNE 12-13, 2013 CHICAGO, IL
FOR THE
NFPA 70, NATIONAL ELECTRICAL CODE®

I. Introduction. This is the third Motions Committee Report listing Certified Amending Motions that may be presented at the 2013 Association Technical Meeting in Chicago, IL on June 12-13, 2013. The Motions Committee, consisting of NFPA Standards Council Members J. Pauley (Chair), K. Bell, R. Bradley, J. Harrington, D. McDaniel, J. Milke, R. Owen and J. Rickard has been appointed by the Chair of the Standards Council to certify proper amending motions and otherwise review and act, in accordance with 2.1 through 2.7 of the *NFPA Technical Meeting Convention Rules (Convention Rules)*, on Notices of Intent to Make a Motion (NITMAMs) that have been submitted on NFPA 70, *National Electrical Code®*, (*NEC®*) which is being processed in the Annual 2013 Revision Cycle.

This Report is the third of three reports addressing motions submitted for consideration at the 2013 Association Technical Meeting, and is specific to the *NEC*. A Consolidated Final Motions Committee Report (the Consolidated Report) will be posted on the NFPA website prior to the Association Technical Meeting. The Consolidated Report will include the three Motions Committee Reports related to the 2013 Association Technical Meeting, namely: the present Report for the *NEC*; the Final Report for Annual 2013 Revision Cycle Documents (excluding the *NEC*), (posted May 5, 2013) and the Report for the Fall 2012 Revision Cycle Documents (posted November 2, 2012). The Consolidated Report will contain all of the certified amending motions contained in the three base Reports. However, the Motions Committee may refine or revise the sequencing and/or grouping of previously published motions to facilitate the fair, orderly, and efficient consideration of the subjects presented by the motions. Please check the NFPA website to obtain the Consolidated Report.

Under NFPA rules, persons wishing to make an allowable amending motion at an NFPA Technical Meeting must declare their intention to do so by filing, within the published deadlines, a NITMAM setting forth information about the intended motion. The Motions Committee, in accordance with NFPA rules, reviews each NITMAM to determine whether the intended motion is a proper motion. The Motions Committee can also, in consultation with the submitter of the NITMAM, clarify the intent of, and, if appropriate, restate the motion, and, in certain circumstances, group motions that are dependent on each other together so that they can be made as a single motion. In addition, the Motions Committee may take such other action or make such other recommendations as will facilitate the fair, orderly, and efficient consideration of motions within the available time. The Motions Committee certifies for presentation at the appropriate Association Technical Meeting all proper Amending Motions, either as submitted or as clarified, restated or grouped, as explained above. The Motions Committee then publishes a report setting forth, at a minimum, each Certified Amending Motion, the person(s)

authorized to make such motions, and the recommended order in which motions should be entertained. In addition, the Report may include Motions Committee notes or comments aimed at assisting the Presiding Officer or facilitating the understanding of or the orderly and efficient consideration of the motion when presented at the Association Technical Meeting.

The Certified Amending Motions for the *NEC* reporting in the Annual 2013 Revision Cycle are set forth in Part II of this Report; Part III of this Report summarizes motions on the *NEC* that were not certified by the Motions Committee. In reviewing this Report, the following should be considered:

- The only Amending Motions allowed at an Association Technical Meeting are Certified Amending Motions set forth in a report of the Motions Committee and any Follow-Up Motions, that is, motions that may become necessary as a result of a previous successful Amending Motion. (See *Convention Rules* at 3.4.4.)
- Certified Amending Motions can only be made by person(s) listed in this Report as authorized to make the motion, or by person(s) they have designated in writing to the Standards Council Secretary as their Designated Representative. See *Regulations Governing Committee Projects (Regs.)* at 4.6.8.1.
- The Certified Amending Motions set forth in this Report are proper and permissible; they will, however, only be presented for consideration of the membership at the 2013 Association Technical Meeting if a person authorized to make the motion (or their Designated Representative) actually appears, signs in no later than one hour before the beginning of the session (see *Convention Rules* at 2.7), and makes the motion in accordance with NFPA rules.
- This Report concerns only the *NEC* which is reporting at the Annual 2013 Association Technical Meeting in Chicago, IL on June 12-13, 2013. As further set forth for the above, other Documents reporting to the 2013 Association Technical Meeting are treated in separate Reports.

The information presented above provides a general introduction to some of the relevant features of the NITMAM process and the presentation of Certified Amending Motions. For a full and complete understanding of the process, participants should consult the rules themselves, including the *Convention Rules* and the *Regs.* In particular, the rules concerning the submission of NITMAMS and the Certification of Amending Motions can be found at 2.0 of the *Convention Rules* and 4.5 of the *Regs.* The rules concerning membership action at Association Technical Meetings can be found, generally, in the *Convention Rules* and in 4.6 of the *Regs.* These are published in the *2013 NFPA Standards Directory* and are available on the NFPA website at www.nfpa.org. For additional information about the NFPA codes and standards process, consult the NFPA website or contact NFPA Codes & Standards Administration Department at 617-984-7248.

II. Certified Amending Motions.

Table A summarizes the Motions on the *NEC* that have been reviewed by the Motions Committee and certified as Certified Amending Motions. These motions can be presented for consideration at the 2013 Association Technical Meeting in Chicago, IL on June 12-13, 2013.

Previously, the Motions Committee had ruled that six Annual 2013 Revision Cycle Documents (other than *NEC*) and three Fall 2012 Revision Cycle Documents have certified amending motions (See the *Final Report of the Motions Committee on Certified Amending Motions for Presentation at the 2013 Association Technical Meeting (For the Annual 2013 Revision Cycle Documents, Except for NFPA 70, National Electrical Code®)*, and the *Report of the Motions Committee on Certified Amending Motions: Fall 2012 Revision Cycle Documents*).

Note: In accordance with 1.6.2(a) of the Regs, anyone who is dissatisfied with the results of the floor motions from the June 2013 Association Technical Meeting and/or the result of the Technical Committee amendment ballots [see Regs at 1.6.2(b)] have the right to appeal the results. Appeals shall be filed no later than twenty days after the Association Technical Meeting at which Association action on the issuance of the Document was recommended. The final date to file any such appeal is July 3, 2013.

III. NITMAMs that were not Certified by Motions Committee.

Table B summarizes the Motions for the *NEC* in the Annual 2013 Revision Cycle that have been reviewed by the Motions Committee and not certified. (Note that Table B only includes *NEC* motions in the Annual 2013 revision cycle.)

IV. Consent Documents.

As the *NEC* received NITMAMs that were certified as amending motions, the *NEC* is not a consent document.

(Note: The motions are presented in the order or presentation recommended by the Motions Committee)**

Panel 12 NFPA 70, *National Electric Code*® A2013

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Amending Motion	Motion Committee Notes and Comments**
70-20	1156	625.2 (Electric Vehicle) and 625.3 (New)	Marcelo M. Hirschler, GBH International	Accept Comment 12-21	<p>Group Amending Motion (70-20): Motions identified by (Logs 1156 and 1157) taken together seek to modify Section 625.2 and add a new Section 625.3.</p> <p>These motions have been certified as proper. In addition, with the agreement of the authorized maker of the motions, these motions are being considered as dependent motions which will be debated and voted on by the assembly as a single up or down package. See NFPA Technical Meeting Convention Rules at 2.3. Accordingly, the following procedure will be in effect for these motions at the Technical Session: the two dependent motions will be grouped into a single “Group Amending Motion” identified as Motion 70-20 which, once made by the authorized person, will effectively place the dependent motions on the floor for debate and vote as a single up or down motion.</p>
	1157	625.2 (Electric Vehicle Connector) and 625.3 (New)	Marcelo M. Hirschler, GBH International	Accept Comment 12-22	

† Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA’s *Regulations Governing Committee Projects*

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

* In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org.

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Amending Motion	Motion Committee Notes and Comments**
70-31	1170	708.10(C)(2)	Elaine Thompson & Richard Loyd, Steel Tube Institute of North America †E. Thompson & R. Loyd are the Desig. Reps for W. Wolfe	Accept Comment 13-101	Related Motions: Motions 70-31 and 70-32 (Logs 1170 and 1171) while different in the means they employ, seek to achieve the same action. Specifically, either of the motions, if successful, seeks to reject Proposal 13-167 thereby returning Section 708.10(C)(2) to previous edition text.
70-32	1171	708.10(C)(2)	Elaine Thompson & Richard Loyd, Steel Tube Institute of North America †E. Thompson & R. Loyd are the Desig. Reps for W. Wolfe	Accept Comment 13-102	
70-33	1182	708.10(C)(2)(3)	James S. Nasby, Columbia Engineering	Accept Comment 13-105	Related Motions: Motions 70-33 and 70-34 (Logs 1182 and 1181) while different in the means they employ, seek to achieve the same action. Specifically, either of the motions, if successful, seeks to accept the respective Comment, which effectively modifies a part of Proposal 13-167 back to previous edition text. As a result Section 708.10(C)(2)(3) would read as follows: (3) Be encased in a minimum of 50 mm (2 in.) of concrete.
70-34	1181	708.10(C)(2)(3)	James S. Nasby, Columbia Engineering	Accept Comment 13-104	

† Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA’s *Regulations Governing Committee Projects*

** In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

70-37	1176	517.30(C)(3)	Chad Beebe, ASHE	Accept Proposal 15-62 as Modified by TC.	If successful, this motion seeks to modify Section 517.30(C)(3) as follows: (3) Mechanical protection of the Emergency Essential Electrical System. The wiring of the emergency <u>life safety and critical branches</u> shall be mechanically protected. Where installed as branch circuits in patient care rooms <u>spaces</u> areas , the installation shall comply with the requirements of 517.13(A) and (B). The following wiring methods shall be permitted.

(Note: The motions are presented in the order or presentation recommended by the Motions Committee)**

Panel 19 NFPA 70, *National Electric Code*[®] A2013

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Amending Motion	Motion Committee Notes and Comments**
70-40	1161	550.2 and 550.4.1 through 550.4.3 (New)	Marcelo M. Hirschler, GBH International	Accept Comment 19-12	<p>Group Amending Motion (70-40): Motions identified by (Logs 1161 and 1162) taken together seek to modify the definition of “Manufactured Home” and “Mobile Home” in Section 550.2 and add a new Section 550.4.1 through 550.4.3.</p> <p>These motions have been certified as proper. In addition, with the agreement of the authorized maker of the motions, these motions are being considered as dependent motions which will be debated and voted on by the assembly as a single up or down package. See NFPA Technical Meeting Convention Rules at 2.3. Accordingly, the following procedure will be in effect for these motions at the Technical Session: the two dependent motions will be grouped into a single “Group Amending Motion” identified as Motion 70-40 which, once made by the authorized person, will effectively place the dependent motions on the floor for debate and vote as a single up or down motion.</p>
	1162	550.2 and 550.4.1 through 550.4.3 (New)	Marcelo M. Hirschler, GBH International	Accept Comment 19-13
