

CONSOLIDATED REPORT OF THE MOTIONS COMMITTEE
ON CERTIFIED AMENDING MOTIONS
FOR PRESENTATION AT THE
2010 ASSOCIATION TECHNICAL MEETING,
JUNE 9-10, 2010, LAS VEGAS, NEVADA

I. Introduction. This is the Consolidated Final Motions Committee Report (Consolidated Report) listing Certified Amending Motions that may be presented at the 2010 Association Technical Meeting in Las Vegas, NV on June 9-10, 2010. The Motions Committee, consisting of NFPA Standards Council Members J. Pauley, (Chair), K. Bell, S. Clary, R. Farr, R. Gerdes and J. Jardin, has been appointed by the Chair of the Standards Council to certify proper amending motions and otherwise review and act, in accordance with 2.1 through 2.7 of the *NFPA Technical Meeting Convention Rules (Convention Rules)*, on Notices of Intent to Make a Motion (NITMAMs) that have been submitted on NFPA codes and standards (Documents), which are being processed in the Fall 2009 Revision Cycle and the Annual 2010 Revision Cycle [including NFPA 70, *National Electrical Code*[®] (NEC[®])].

This Consolidated Report consolidates the three previous Motions Committee Reports related to the 2010 Association Technical Meeting, namely: the Report for the NEC (posted May 21, 2010); the Report for Annual 2010 Revision Cycle non-NEC Documents (posted May 7, 2010); and the Report for the Fall 2009 Revision Cycle Documents (posted November 20, 2009). The Consolidated Report contains all of the certified amending motions contained in the three base Reports. However, the Motions Committee may have refined or revised the sequencing and/or grouping of previously published motions to facilitate the fair, orderly and efficient consideration of the subjects presented by the motions at the Association Meeting.

Under NFPA rules, persons wishing to make an allowable amending motion at an Association Technical Meeting must declare their intention to do so by filing, within the published deadlines, a NITMAM setting forth information about the intended motion. The Motions Committee, in accordance with NFPA rules, reviews each NITMAM to determine whether the intended motion is a proper motion. The Committee can also, in consultation with the submitter of the NITMAM, clarify the intent of, and, if appropriate, restate the motion, and, in certain circumstances, group together motions that are dependent on each other so that they can be made as a single motion. In addition, the Motions Committee may take such other action or make such other recommendations as will facilitate the fair, orderly and efficient consideration of motions within the available time. The Motions Committee certifies for presentation at the appropriate Association Technical Meeting all proper Amending Motions, either as submitted or as clarified, restated or grouped, as explained above. The Motions Committee then publishes a Report setting forth, at a minimum, each Certified Amending Motion, the person(s) authorized to make such motions, and the recommended order in which motions should be entertained. In addition, the Report may include Motions Committee notes or comments aimed at assisting the Presiding Officer or facilitating the understanding of or the orderly and efficient consideration of the motion when presented at the Association Technical Meeting.

The Certified Amending Motions for documents in the Fall 2009 Revision Cycle, and documents (including the NEC) in the Annual 2010 Revision Cycle are set forth in Part II of this report. Part III

summarizes NITMAMs for those documents in the cycles identified above that were not certified by the Motions Committee. In reviewing this report, the following should be considered:

- The only Amending Motions allowed at an Association Technical Meeting are Certified Amending Motions set forth in a report of the Motions Committee and any Follow-Up Motions, that is, motions that may become necessary as a result of a previous successful Amending Motion. (See *Convention Rules* at 3.4.4.)
- Certified Amending Motions can only be made by person(s) listed in this Report as authorized to make the motion, or by persons they have designated in writing to the Standards Council Secretary as their Designated Representative. See *Regulations Governing Committee Projects (Regs.)* at 4.6.8.1.
- The Certified Amending Motions set forth in this report are proper and permissible; they will, however, only be presented for the consideration of the membership at the 2010 Association Technical Meeting if a person authorized to make the motion (or their Designated Representative) actually appears, signs in no later than one hour before the beginning of the session (see *Convention Rules* at 2.7), and makes the motion in accordance with NFPA rules.
- This Report concerns all Certified Amending Motions for consideration at the 2010 Association Technical Meeting in Las Vegas, NV on June 9-10, 2010.

The information presented above provides a general introduction to some of the relevant features of the NITMAM process and the presentation of Certified Amending Motions. For a full and complete understanding of the process, participants should consult the rules themselves, including the *Convention Rules* and the *Regs.* In particular, the rules concerning the submission of NITMAMs and the Certification of Amending Motions can be found at 2.0 of the *Convention Rules* and 4.5 of the *Regs.* The rules concerning membership action at Association Technical Meetings can be found, generally, in the *Convention Rules* and in 4.6 of the *Regs.* These are published in the 2010 Annual Directory and are available on the NFPA website at www.nfpa.org. For additional information about the NFPA codes and standards process, consult the NFPA website or contact NFPA Codes & Standards Administration Department at 617-984-7248.

II. Certified Amending Motions. Previously, the Motions Committee had ruled that nine Annual 2010 Revision Cycle Documents (including the NEC) and seven Fall 2009 Revision Cycle Documents had certified amending motions for consideration at the 2010 Association Technical Meeting (see the previously published reports as noted above). These rulings have not been modified. The consolidated list of documents with certified amending motions is as follows:

NFPA 18	<i>Standard on Wetting Agents</i>
NFPA 25	<i>Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems</i>
NFPA 45	<i>Standard on Fire Protection for Laboratories Using Chemicals</i>
NFPA 53	<i>Recommended Practice on Materials, Equipment, and Systems Used in Oxygen-Enriched Atmospheres</i>
NFPA 58	<i>Liquefied Petroleum Gas Code</i>
NFPA 70	<i>National Electrical Code®</i>
NFPA 86	<i>Standard for Ovens and Furnaces</i>

NFPA 96	<i>Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations</i>
NFPA 204	<i>Standard for Smoke and Heat Venting</i>
NFPA 214	<i>Standard on Water-Cooling Towers</i>
NFPA 276	<i>Standard Method of Fire Tests for Determining the Heat Release Rate of Roofing Assemblies with Combustible Above-Deck Roofing Components</i>
NFPA 303	<i>Fire Protection Standard for Marinas and Boatyards</i>
NFPA 409	<i>Standard on Aircraft Hangars</i>
NFPA 502	<i>Standard for Road Tunnels, Bridges, and Other Limited Access Highways</i>
NFPA 505	<i>Fire Safety Standard for Powered Industrial Trucks Including Type Designations, Areas of Use, Conversions, Maintenance, and Operations</i>
NFPA 654	<i>Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids</i>

Table A summarizes the motions that have been reviewed and certified by the Motions Committee for documents processed in the Annual 2010 Revision Cycle and in the Fall 2009 Revision Cycle for consideration at the 2010 Association Technical Meeting in Las Vegas, NV, June 9-10, 2010.

III. NITMAMS that were not Certified by the Motions Committee. Table B summarizes the NITMAMS for documents processed in the Annual 2010 revision cycle and the Fall 2009 Revision Cycle that have been reviewed by the Motions Committee and were not certified.

IV. Consent Documents. Where a Document in the Annual 2010 Revision Cycle or the Fall 2009 Revision Cycle receives no NITMAMS, or receives NITMAMS but none are certified by the Motions Committee as Certified Amending Motions, the Document is considered a “Consent Document.” A Consent Document is not presented to the Association Technical Meeting and is, instead, forwarded directly to the Standards Council for issuance. See *Regs.* at 4.5.6.

As previously reported, following are the sixteen Consent Documents in the Annual 2010 Revision Cycle with proposed issuance and effective dates. The Consent Documents were forwarded directly to the Standards Council for issuance via letter ballot:

Issuance Date – June 1, 2010, Effective Date – June 21, 2010

NFPA 30B	<i>Code for the Manufacture and Storage of Aerosol Products</i>
NFPA 33	<i>Standard for Spray Application Using Flammable or Combustible Materials</i>
NFPA 34	<i>Standard for Dipping and Coating Processes Using Flammable or Combustible Liquids</i>
NFPA 40	<i>Standard for the Storage and Handling of Cellulose Nitrate Film</i>
NFPA 73	<i>Electrical Inspection Code for Existing Dwellings</i>
NFPA 87	<i>Recommended Practice for Fluid Heaters</i>
NFPA 88A	<i>Standard for Parking Structures</i>
NFPA 160	<i>Standard for the Use of Flame Effects Before an Audience</i>
NFPA 307	<i>Standard for the Construction and Fire Protection of Marine Terminals, Piers, and Wharves</i>
NFPA 312	<i>Standard for Fire Protection of Vessels During Construction, Conversion, Repair, and Lay-Up</i>
NFPA 556	<i>Guide on Methods for Evaluating Fire Hazard to Occupants of Passenger</i>

Road Vehicles

- NFPA 780 *Standard for the Installation of Lightning Protection Systems*
- NFPA 1000 *Standard for Fire Service Professional Qualifications Accreditation and Certification Systems*
- NFPA 1071 *Standard for Emergency Vehicle Technician Professional Qualifications*
- NFPA 1126 *Standard for the Use of Pyrotechnics Before a Proximate Audience*
- NFPA 1145 *Guide for the Use of Class A Foams in Manual Structural Fire Fighting*

Note: In accordance with 1.6.2(a) of the Regs., there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the issuance of any Consent Documents listed in this report. Note, however, that unless clear and substantial reasons exist to consider such an appeal, the Standards Council “may summarily dismiss the appeal on account of the procedural failure to notice and make an appropriate motion at the Association Technical Meeting.” The final date to file any such appeal is June 16, 2010.

Following are the fifty-one Consent Documents in the Fall 2009 Revision Cycle that were previously acted on and issued by the Standards Council.

Issuance Date – October 27, 2009, Effective Date – December 5, 2009

- NFPA 10 *Standard for Portable Fire Extinguishers*
- NFPA 11 *Standard for Low-, Medium-, and High-Expansion Foam*
- NFPA 13E *Recommended Practice for Fire Department Operations in Properties Protected by Sprinkler and Standpipe Systems*
- NFPA 14 *Standard for the Installation of Standpipes and Hose Systems*
- NFPA 37 *Standard for the Installation and Use of Stationary Combustion Engines and Gas Turbines*
- NFPA 70B *Recommended Practice for Electrical Equipment Maintenance*
- NFPA 91 *Standard for Exhaust Systems for Air Conveying of Vapors, Gases, Mists, and Noncombustible Particulate Solids*
- NFPA 120 *Standard for Fire Prevention and Control in Coal Mines*
- NFPA 122 *Standard for Fire Prevention and Control in Metal/Nonmetal Mining and Metal Mineral Processing Facilities*
- NFPA 211 *Standard for Chimneys, Fireplaces, Vents, and Solid Fuel-Burning Appliances*
- NFPA 255 *Standard Method of Test of Surface Burning Characteristics of Building Materials*
- NFPA 326 *Standard for the Safeguarding of Tanks and Containers for Entry, Cleaning, or Repair*
- NFPA 329 *Recommended Practice for Handling Releases of Flammable and Combustible Liquids and Gases*
- NFPA 405 *Standard for the Recurring Proficiency of Airport Fire Fighters*
- NFPA 408 *Standard for Aircraft Hand Portable Fire Extinguishers*
- NFPA 410 *Standard on Aircraft Maintenance*
- NFPA 422 *Guide for Aircraft Accident/Incident Response Assessment*
- NFPA 423 *Standard for Construction and Protection of Aircraft Engine Test Facilities*
- NFPA 495 *Explosive Materials Code*
- NFPA 498 *Standard for Safe Havens and Interchange Lots for Vehicles Transporting Explosives*

- NFPA 520 *Standard on Subterranean Spaces*
- NFPA 551 *Guide for the Evaluation of Fire Risk Assessments*
- NFPA 600 *Standard on Industrial Fire Brigades*

NFPA 601	<i>Standard for Security Services in Fire Loss Prevention</i>
NFPA 701	<i>Standard Methods of Fire Tests for Flame Propagation of Textiles and Films</i>
NFPA 750	<i>Standard on Water Mist Fire Protection Systems</i>
NFPA 804	<i>Standard for Fire Protection for Advanced Light Water Reactor Electric Generating Plants</i>
NFPA 805	<i>Performance-Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants</i>
NFPA 806	<i>Performance-Based Standard for Fire Protection for Advanced Nuclear Reactor Electric Generating Plants Change Process</i>
NFPA 850	<i>Recommended Practice for Fire Protection for Electric Generating Plants and High Voltage Direct Current Converter Stations</i>
NFPA 851	<i>Recommended Practice for Fire Protection for Hydroelectric Generating Plants</i>
NFPA 853	<i>Standard for the Installation of Stationary Fuel Cell Power Systems</i>
NFPA 900	<i>Building Energy Code</i>
NFPA 914	<i>Code for Fire Protection of Historic Structures</i>
NFPA 1003	<i>Standard for Airport Fire Fighter Professional Qualifications</i>
NFPA 1035	<i>Standard for Professional Qualifications for Public Fire and Life Safety Educator</i>
NFPA 1150	<i>Standard on Foam Chemicals for Fires in Class A Fuels</i>
NFPA 1201	<i>Standard for Providing Emergency Services to the Public</i>
NFPA 1250	<i>Recommended Practice in Emergency Service Organization Risk Management</i>
NFPA 1407	<i>Standard for Fire Service Rapid Intervention Crews</i>
NFPA 1410	<i>Standard on Training for Initial Emergency Scene Operations</i>
NFPA 1452	<i>Guide for Training Fire Service Personnel to Conduct Dwelling Fire Safety Surveys</i>
NFPA 1581	<i>Standard on Fire Department Infection Control Program</i>
NFPA 1600	<i>Standard on Disaster/Emergency Management and Business Continuity Programs</i>
NFPA 1620	<i>Recommended Practice for Pre-Incident Planning</i>
NFPA 1801	<i>Standard on Thermal Imagers for the Fire Service</i>
NFPA 1931	<i>Standard for Manufacturer's Design of Fire Department Ground Ladders</i>
NFPA 1932	<i>Standard on Use, Maintenance, and Service Testing of In-Service Fire Department Ground Ladders</i>
NFPA 1936	<i>Standard on Powered Rescue Tools</i>
NFPA 1952	<i>Standard on Surface Water Operations Protective Clothing and Equipment</i>
NFPA 2010	<i>Standard for Fixed Aerosol Fire-Extinguishing Systems</i>

Note: In accordance with 1.6.2(a) of the Regs., there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the issuance of any Consent Documents listed in this report. Note, however, that unless clear and substantial reasons exist to consider such an appeal, the Standards Council “may summarily dismiss the appeal on account of the procedural failure to notice and make an appropriate motion at the Association Technical Meeting.” The final date to file any such appeal was December 5, 2009. In the case of NFPA 495 and NFPA 850 the final date to file any such appeal was December 30, 2009.

TABLE A
Certified Amending Motions on Documents for the June 2010 Association Technical Meeting
 (Note: The motions are presented in the order of presentation recommended by the Motions Committee)

NFPA 45, Standard on Fire Protection for Laboratories Using Chemicals F2009

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motion Committee Notes and Comments**
45-1	636	8.10.1	William A. Eckholm, Firetrace International	Accept Proposal 45-20	If successful, this motion seeks to require automatic fire protection systems in chemical fume hoods except those with a specified flame index or when deemed unnecessary by a hazard assessment.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

TABLE A
Certified Amending Motions on Documents for the June 2010 Association Technical Meeting
 (Note: The motions are presented in the order of presentation recommended by the Motions Committee)

NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids A2010

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motions Committee Notes and Comments**
654-1	701	3.3.x Dust Fire Hazard Areas	John M. Cholin, J. M. Cholin Consultants Inc.	Accept Comment 654-5	
654-2	715	3.3.4 Combustible Dust	David B. Wechsler, The Dow Chemical Company	Reject an Identifiable Part of Comment 654-6 The rejection of the identifiable part results in the rejection of the changes to the definition of "Combustible Dust".	<p>Group Amending Motion (654-2): Motions identified by Logs 715, 746, and 747 taken together seek to return the definition of "Combustible Dust" to the language of Proposal 654-6 as follows:</p> <p>3.3.4* Combustible Dust. A combustible particulate solid that <u>has a surface area to volume ratio greater than that of a 420 micron diameter sphere and</u> presents a fire or deflagration hazard when suspended in air or some other oxidizing medium over a range of concentrations, regardless of particle size or shape. Annex A.3.3.4 remains unchanged.</p> <p>The three motions have been certified as proper. In addition, with the agreement of the authorized maker of the motions, these motions are being considered as dependent motions which will be debated and voted on by the assembly as a single up or down package. See NFPA Technical Meeting Convention Rules 2.3.</p> <p>Accordingly, the following procedure will be in effect for these motions at the Technical Session: the three dependent motions will be grouped into a single "Group Amending Motion" identified as Motion 654-2 which, once made by the authorized person, will effectively place both dependent motions on the floor for debate and vote as a single up or down motion.</p>
	746	3.3.4 Combustible Dust	David B. Wechsler, The Dow Chemical Company	Reject an Identifiable Part of Comment 654-7 The rejection of the identifiable part results in the rejection of the changes to the definition of "Combustible Dust".	
	747	3.3.4 Combustible Dust	David B. Wechsler, The Dow Chemical Company	Reject an Identifiable Part of Comment 654-8 The rejection of the identifiable part results in the rejection of the changes to the definition of "Combustible Dust".	

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

TABLE A
Certified Amending Motions on Documents for the June 2010 Association Technical Meeting

(Note: The motions are presented in the order of presentation recommended by the Motions Committee)

NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids A2010 (continued)

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motions Committee Notes and Comments**
654-3	704	6.1 (New)	John M. Cholin, J. M. Cholin Consultants Inc.	Return a portion of a Report in the form on identifiable part of a proposal 654-15 and related comment 654-10 The identifiable part that is returned is new proposed Section 6.1.	Multiple Notices for a Single Motion: In regards to Motion 654-3, multiple submitters have filed NITMAMs for the same motions (Logs 704, 700, 713) which shall be treated as a Single Motion per Section 2.4 of NFPA's Convention Rules. Any of the submitters are permitted to make the motion. If successful, the proposed motion seeks to eliminate proposed new Section 6.1 which introduces a new method for determining the presence of a hazardous area (either dust flash fire or dust explosion hazard area) and return the section to the 2006 edition text.
	700		Donald Hirsch, Iron Mountain		
	713		Sam W. Francis, American Forest & Paper Association		
654-4	710	6.1.3 and 6.1.4	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-24	
654-5	711	6.1.3, 6.1.4, and 6.1.5	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-31	
654-6	702	6.1.8 [new 7.13.1.7.3]	John M. Cholin, J. M. Cholin Consultants Inc.	Accept Comment 654-33	If successful, this proposed motion seeks to add a requirement permitting the recycling of air-material separator exhaust when the returned air is automatically diverted to the building exterior in the event of a fire within the air-material separator.
654-7	709	6.1.8(2)	Sam W. Francis, American Forest & Paper Association Francis is the Desig. Rep* for Lancey	Accept Comment 654-36	If successful, this proposed motion would delete one of seven conditions required when air-material separator (commonly dust collectors) exhaust is to be recycled to buildings or rooms. The condition proposed for deletion is the following: 2. *Combustible particulate solids are not present in the recycled air in concentrations above applicable industrial hygiene exposure limits or 1% of the MEC, whichever is lower.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

NFPA 409, Standard on Aircraft Hangars F2009

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motion Committee Notes and Comments**
409-1	655	2.2	Daniel Dye, Marioff Inc.	Accept Comment 409-1	<p>Group Amending Motion (409-1): Motions identified by Logs 655, 656, 657, 658, 654, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, and 669 taken together seek to allow water mist technology in aircraft storage and servicing areas. All motions have been certified as proper. In addition, with the agreement of the authorized maker of the motions, these motions are being considered as dependent motions which will be debated and voted on by the assembly as a single up or down package. See NFPA Technical Meeting Convention Rules 2.3.</p> <p>Accordingly, the following procedure will be in effect for these motions at the Technical Session: the two dependent motions will be grouped into a single “Group Amending Motion” identified as Motion 409-1 which, once made by the authorized person, will effectively place both dependent motions on the floor for debate and vote as a single up or down motion.</p>
	656	3.3	Daniel Dye, Marioff Inc.	Accept Comment 409-2	
	657	6.2.1.2	Daniel Dye, Marioff Inc.	Accept Comment 409-3	
	658	6.2.2	Daniel Dye, Marioff Inc.	Accept Comment 409-4	
	654	6.2.2.1.4	Daniel Dye, Marioff Inc.	Accept Comment 409-6	
	659	6.2.2.15	Daniel Dye, Marioff Inc.	Accept Comment 409-7	
	660	6.2.2.16	Daniel Dye, Marioff Inc.	Accept Comment 409-8	
	661	6.2.2.17	Daniel Dye, Marioff Inc.	Accept Comment 409-9	
	662	6.2.2.18	Daniel Dye, Marioff Inc.	Accept Comment 409-10	
	663	6.2.2.19	Daniel Dye, Marioff Inc.	Accept Comment 409-11	
	664	6.2.3.3	Daniel Dye, Marioff Inc.	Accept Comment 409-12	
	665	6.2.3.6	Daniel Dye, Marioff Inc.	Accept Comment 409-14	
	666	6.2.3.6.1	Daniel Dye, Marioff Inc.	Accept Comment 409-15	
	667	6.2.3.6.2	Daniel Dye, Marioff Inc.	Accept Comment 409-16	
	668	6.2.11	Daniel Dye, Marioff Inc.	Accept Comment 409-19	
669	11.1	Daniel Dye, Marioff Inc.	Accept Comment 409-26		

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA’s Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motions Committee Notes and Comments**
25-1	725	1.1.3.1 and A.1.1.3	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Accept Comment 25-5	<p>Related Motions: Motions 25-1 and 25-2 (Logs 725 and 717) while different in the means they employ, seek to achieve the same action. Specifically, either of the motions, if successful, would delete new 1.1.3.1 and associated annex. These motions have been certified as proper. So as to eliminate multiple debates on the same proposed action, however, the following procedure regarding the orderly and efficient consideration of the subject presented by the related motions will be in effect at the Technical Session:</p> <p>Once either of the motions is made and seconded, the other will no longer be in order, and the single motion on the floor will serve as the representative motion for purposes for debate and vote on the proposed action. All persons wishing to participate in debate on the proposed action should, therefore, do so during the presentation of the representative motion.</p>
25-2	717	1.1.3.1 (New)	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-3	
25-3	718	1.1.3.1 (New)	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-4	
25-4	726	3.3.4 Deficiency	Joshua Elvove, U.S. General Services Administration Frable and Larrimer are the Desig. Reps*. for Elvove	Accept Comment 25-11	<p>If successful, this proposed motion results in a return to the definition of “Deficiency” in the 2008 edition text as follows:</p> <p>3.3.4 Deficiency. A condition in which the application of the components is not within its designed limits or specifications. [1071:2006]</p>
25-5	693	3.3.4 Deficiency and A.3.3.4	Marcelo M. Hirschler, GBH International	Accept Comment 25-13	<p>If successful, this proposed motion results in the definition of “Deficiency” as follows:</p> <p>3.3.4* Deficiency. A condition in which a system or component is not suitable for performing its function, because either the device is not being used within its designed limits or specifications, or the device is damaged, inoperable, or in need of service.</p>
25-6	719	4.1.2.3, 4.1.2.4, and A.4.1.2.3	David A. de Vries, Firetech Engineering Inc.	Accept Comment 25-17	

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA’s Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration.  (Note: The motions are presented in the order of presentation recommended by the Motions Committee)

Panel 3 NFPA 70, National Electrical Code® A2010

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motions Committee Notes and Comments**
70-4	738	300.4(G)	Carlo Compagnone, Jr., Compa Covers, Inc. Tomasino is the Desig. Rep.* for Compagnone	Accept Comment 3-13	If successful, this proposed motion seeks to accept the new language proposed in Proposal 3-43.
70-5	766	300.6(A)	Martin J. Brett, Jr., Newark, NJ	Reject Comment 3-22	If successful, this proposed motion would return 300.6(A) back to previous edition text since the original proposal 3-64 was rejected.
70-6	748	590.6	Michael O. Flegel, Racine, WI	Accept Comment 3-69	If successful, this proposed motion returns 590.6 to previous edition text.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

70-7	756	310.15(B)(2)(c) and FPN, and Table 310.15(B)(2)(c) and FPN	Christel K. Hunter, Alcan Cable	Accept Comment 6-43	<p>Related Motions: Motions 70-7 and 70-8 (Logs 756 and 767) while different in the means they employ, seek to achieve the same action. Specifically, either of the motions, if successful, would delete requirements for derating cables in conduit installed on rooftops. Section 310.15(B)(3)(a), its accompanying table and informational note would be deleted. These motions have been certified as proper. So as to eliminate multiple debates on the same proposed action, however, the following procedure regarding the orderly and efficient consideration of the subject presented by the related motions will be in effect at the Technical Session:</p> <p>Once either of the motions is made and seconded, the other will no longer be in order, and the single motion on the floor will serve as the representative motion for purposes for debate and vote on the proposed action. All persons wishing to participate in debate on the proposed action should, therefore, do so during the presentation of the representative motion.</p>
70-8	767	310.15(B)(2)(c) and Table 310.15(B)(2)(c)	Martin J. Brett, Jr., Newark, NJ	Accept Comment 6-44	

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

70-9	765	310.15(B)(2)(c)	Elaine Thompson, Steel Tube Institute of North America Thompson is the Desig. Rep.* for Wolfe.	Accept Comment 6-35	If successful, this proposed motion accepts Comment 6-35. The text reads as follows: 310.15(B)(2)(c) Conduits and MC Cables Exposed to Sunlight on Rooftops. Where conductors <u>in conduits or MC cables are installed</u> or cables are <u>installed</u> or cables are installed in conduits exposed to direct sunlight on or above rooftops, the adjustments shown in Table 310.15(B)(2)(c) shall be added to the outdoor temperature to determine the applicable ambient temperature for application of the correction factors in Table 310.16 and Table 310.18.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.

Panel 6 NFPA 70, National Electrical Code® A2010 (continued)

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motions Committee Notes and Comments**
70-10	768	310.15(B)(6), (2008 edition) 310.15(B)(7) (ROP Draft)	Richard A. Holub, Middletown, DE Holub is the Desig. Rep* for Cline	Accept an Identifiable Part as modified by Panel for Comment 6-55 The acceptance of the identifiable part results in the acceptance of the Comment 6-55 as modified by the Panel, with the omission of the word "corrected" in the last sentence of 310.15(B)(7)(b).	If successful, the proposed motion modifies 310.15(B)(7) to read as follows: (7) 120/240-Volt, Single-Phase Dwelling Services and Feeders The provisions of (a), (b), and (c) below shall be applicable for 120/240-volt, single-phase systems, for individual dwelling units of one-family, two-family, and multifamily dwellings that supply a single service disconnect for each unit. (a) Service Entrance and Underground Service Conductors. Conductors, as listed in Table 310.15(B)(7), shall be permitted as service-entrance conductors and underground service conductors. (b) Feeder Conductors. Feeder conductors listed in table 310.15(B)(7) installed in conduit or as part of a listed cable assembly that do not require adjustments or corrections shall be determined using Table 310.15(B)(7). If adjustments or corrections are required, first determine the ampacity of the service conductors or laterals by utilizing Table 310.15(B)(16), using the 75 degrees C column values. After adjustments or corrections, the feeder conductors shall not be required to have an ampacity greater than the corrected value determined from the table. (c) Grounded Conductor. The grounded conductor shall be permitted to be smaller than the ungrounded conductors, provided the requirements of 215.2, 220.61, and 230.42 are met.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.
