10-8-29	Consider the request of the Technical Correlating Committee on Automatic Sprinkler Systems to revise the scopes for the Technical Committee on Sprinkler Systems Installation (AUT-SSI) and the Technical Committee on Sprinkler System Discharge (AUT-SSD) by transferring the responsibilities for Chapter 22 and Chapter 23. AUT-SSD Current Scope: This Committee shall have primary responsibility for those portions of NFPA 13 that pertain to the

	<p>classification of various fire hazards and the determination of associated discharge criteria for sprinkler systems employing automatic and open sprinklers.</p> <p>AUT-SSD Proposed Scope: This Committee shall have primary responsibility for those portions of NFPA 13 that pertain to the classification of various fire hazards and the determination of associated discharge criteria for sprinkler systems employing automatic and open sprinklers, <u>sprinkler system plans and calculations, and water supplies</u>.</p> <p>AUT-SSI Current Scope: This Committee shall have the primary responsibility for those portions of NFPA 13 that pertain to the criteria for the use and installation of sprinkler systems components (with the exception of those components used for supporting of piping), position of sprinklers, types of systems, plans and calculations, water supplies, and acceptance testing.</p> <p>AUT-SSI Proposed Scope: This Committee shall have the primary responsibility for those portions of NFPA 13 that pertain to the criteria for the use and installation of sprinkler systems components (with the exception of those components used for supporting of piping), position of sprinklers, types of systems, plans and calculations, water supplies, and acceptance testing.</p> <p>See Attachment 10-8-29</p>
10-8-30	<p>Consider the request of the Technical Committee (TC) on Fire Service Training to have NFPA establish a new document on fire service training on thermal imaging. At the March 2010 Standards Council Meeting the Council directed that the TC on Fire Service Training and the TC on Electronic Safety work together to come to a joint decision on how best to address the issue of fire service training on thermal imagers. The TC on Fire Service Training and the TC on Electronic Safety are reporting back to the Council with a decision that a Task Group composed of members from both TCs produce a draft document and then the Fire Service Training Committee will assume primary responsibility for the management of the document. They propose the scope of the document be as follows:</p> <p>Proposed Committee Scope: This standard shall contain minimum requirements for training fire service personnel in the selection, operation, care, use and maintenance of thermal imagers.</p> <p>See Attachment 10-8-30 See Supplemental Attachment 10-8-30</p>
10-8-31	<p>At the March, 2010 Standards Council Meeting, the Council considered the request of the International Association of Fire Chiefs to have establish a new project on organization and deployment of fire investigation operations, code enforcement operations and public education operations to the public by career</p>

	<p>fire department. Action on this item was deferred from the August 2009, administratively withdrawn from the October 2009 Agenda, and deferred to the March 2010 meeting while additional information was being sought. The Council voted to publish a notice of receipt of the request soliciting opinions on the need for the document, information on resources available on the subject matter, those interested in participating if approved, and other organizations that may be actively involved with the subject matter. Sixty-one responses were received which consisted of support for the proposed project and volunteering to become members of the Committee when formed.</p> <p>Proposed Committee Title: Fire Prevention Organization and Deployment</p> <p>Proposed Committee Scope: This Committee shall have primary responsibility for documents on the organization, operation, deployment, and evaluation of code enforcement, public fire and life safety education, and fire investigation operations.</p> <p>See Attachment 10-8-31 and related Agenda Item 10-8-47-b See Supplemental Attachment 10-8-31</p>
10-8-32	<p>At its March 2010, meeting the Council considered the request of D. Forsman, Chief, Champaign Fire Department, Champaign, Illinois, that NFPA consider the establishment of a new proposed technical committee and document on professional qualifications for emergency responders working on roadways. This request was administratively withdrawn from the October 2009 Agenda and deferred to the March 2010 meeting while additional information was being sought. After review of all the information before them, the Council voted to publish a notice of receipt of the request soliciting opinions on the need for the document, information on resources available on the subject matter, those interested in participating if approved, and other organizations that may be actively involved with the subject matter. Forty-four responses were received which consisted of support for the proposed project and volunteering to become members of the Committee when formed.</p> <p>If established the proposed document scope and title will be:</p> <p>Proposed Committee Title: Traffic Control Incident Management Professional Qualifications</p> <p>Proposed Committee Scope: This standard identifies the minimum job performance requirements (JPRs) necessary to perform temporary traffic control duties at emergency incidents on, or near an active roadway.</p> <p>See Attachment 10-8-32 and Related Agenda Item 10-8-47-a See Supplemental Attachment 10-8-32</p>
10-8-33	<p>Consider the request of the Technical Committee (TC) on Special Operations Protective Clothing and Equipment for a new document on Contaminated Water Operations Protective Clothing and Equipment. At the March 2009 Standards Council Meeting the Council directed the TC to review its membership and make any membership recommendations necessary to assure that the TC has</p>

	<p>appropriate contaminated water expertise. The TC is now reporting back to the Council showing that the TC now has the expertise to write the new document. See Attachment 10-8-33 See Supplemental Attachment 10-8-33</p>
10-8-34	<p>At its March, 2010 meeting, the Council considered the request of the Technical Committee on Hazardous Materials Response Personnel, that NFPA consider the establishment of a new recommended practice on minimum requirements for the organization and management of hazardous materials/weapons of mass destruction (WMD) emergency response program. After review of all the information before them, the Council voted to publish a notice of receipt of the request soliciting opinions on the need for the document, information on resources available on the subject matter, those interested in participating if approved, and other organizations that may be actively involved with the subject matter. Five responses were received which consisted of support for the proposed project when formed. If established the proposed document scope will be:</p> <p>Proposed Document Scope: This recommended practice establishes a common set of criteria for the organization, management, and deployment of personnel, resources, and programs for those public or private entities that are responsible for the hazardous materials/weapons of mass destruction emergency preparedness function.</p> <p>See Attachment 10-8-34 See Supplemental Attachment 10-8-34</p>
10-8-35	<p>At the March 2010 meeting, the Council considered the request of S. Pitts, Marine Corps Systems Command, that NFPA consider the establishment of a new proposed document on power air purifying respirator (PAPR). Action on this item was deferred from the August 2009 meeting. This request was administratively withdrawn from the October 2009 Agenda and deferred to the March 2010 meeting while clarifying information was being sought. After review of all the information before them, the Council voted to publish a notice of receipt of the request soliciting opinions on the need for the document, information on resources available on the subject matter, those interested in participating if approved, and other organizations that may be actively involved with the subject matter. Six responses were received which mostly consisted of support for the proposed project if formed. If established the proposed document could report to the Technical Committee on Respiratory Protection Equipment and the scope will be:</p> <p>Proposed Document Scope: Specify minimum requirements for the design, performance, testing, NIOSH certification, and independent third-party certification for high air flow powered air purifying respirators (PAPRs) for emergency services operations at incidents involving chemical warfare agents, toxic industrial chemicals/toxic industrial materials, biological warfare agents, and radioactive particulates.</p> <p>See Attachment 10-8-35 See Supplemental Attachment 10-8-35</p>

10-8-36	At the March 2010 meeting, the Council acted on a request from NFPA staff on the possibility of combining the four combustible dust committees and five documents they are responsible for into one committee and document. The Council voted to publish a notice regarding this combination and solicit comments from committee members and the public. The comment period has passed and the responses are included as well as a memo from the NFPA staff. See Attachment 10-8-36 See Supplemental Attachment 10-8-36
10-8-37	Consider the request of the Chair of the NEC Technical Correlating Committee (TCC) and the Chair of the Electrical Safety in the Workplace that the Council consider the effective date of the 2010 edition of NFPA 70E not become effective until 180 days from the date of issuance by the Standards Council. See Attachment 10-8-37
10-8-38	Consider the request from NFPA Staff to establish a new Committee and Document on Gas Process Safety. This Committee shall be responsible for defining safe practices associated with gas process safety that would include the various practices related to use of gaseous media to clean, purge, or charge gas piping. See Attachment 10-8-38 and related Agenda Item 10-8-22
10-8-39	Consider the request of the Technical Committee on Explosion Protection Systems for a one time revision cycle change for NFPA 68, <i>Standard on Explosion Protection by Deflagration Venting</i> to move from F2011 to F2012; and NFPA 69, <i>Standard on Explosion Prevention Systems</i> to move from A2012 to F2013. See Attachment 10-8-39
10-8-40	Consider the request of the Technical Committee on Fire Department Apparatus for a one time revision cycle change for NFPA 1906, <i>Standard for Wildland Fire Apparatus</i> to move from F2010 to F2011. This document will not reopen for new proposals. See Attachment 10-8-40
10-8-41	Consider the request of the Technical Committee on Fire Service Occupational Safety and Health for a one time revision cycle change for the following documents: NFPA 1583, <i>Standard on Health-Related Fitness Programs for Fire Department Members</i> ; and NFPA 1584, <i>Standard on Health-Related Fitness Programs for Fire Department Members</i> to move from A2014 to F2014. See Attachment 10-8-41
10-8-42	Consider the request of the Technical Committee on Fire Service Training for a one time revision cycle change for NFPA 1451, <i>Standard for a Fire Service Vehicle Operations Training Program</i> from F2011 to F2012. See Attachment 10-8-42
10-8-43	Consider the request of the Technical Committee on Fire Tests for a one time revision cycle change for the following documents: NFPA 259, <i>Standard Test Method for Developing Toxic Potency Data for Use in Fire Hazard Modeling</i> to move from A2012 to F2012; NFPA 270, <i>Standard Test Method for Measurement of Smoke Obscuration Using a Conical Radiant Source in a Single Closed Chamber</i> to move from A2012 to F2012; NFPA 289, <i>Standard Method of Fire Test for Individual Fuel Packages</i> to move from A2012 to F2012; NFPA 260, <i>Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of</i>

	<i>Components of Upholstered Furniture</i> to move from A2013 to F2012; NFPA 261, <i>Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes</i> to move from A2013 to F2012; NFPA 274, <i>Standard Test Method to Evaluate Fire Performance Characteristics of Pipe Insulation</i> to move from A2013 to F2012; NFPA 290, <i>Standard for Fire Testing of Passive Protection Materials for Use on LP-Gas Containers</i> to move from A2013 to F2012; and NFPA 705, <i>Recommended Practice for a Field Flame Test for Textiles and Films</i> to move from A2013 to F2012. See Attachment 10-8-43
10-8-44	Consider the request of the Technical Committee Static Electricity for a one time revision cycle change for NFPA 77, <i>Recommended Practice on Static Electricity</i> to move from A2011 to F2012. See Attachment 10-8-44
10-8-45	Consider the request of the Technical Committee on Structural and Proximity Fire Fighting Protective Clothing for a one time revision cycle change for NFPA 1851, <i>Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting</i> to move from A2012 to F2012. The Committee is also requesting that the proposal closing date be November 30, 2010. See Attachment 10-8-45
10-8-46	Policy and Procedures Task Group (S. Clary, Chair). See Supplemental Attachment 10-8-46
