NFPA Electrical Workplace Safety Solutions will arm you and your team with the knowledge required to do your work at the highest level.

In a world growing exponentially more complex, having the constant, unparalleled knowledge to do the the job right and remain compliant with OSHA requirements is critical.

Electrical-related incidents are a serious risk to people, revenue and productivity in the workplace. That’s why NFPA® is dedicated to solving for electrical workplace safety training and education needs.

NFPA created the leading source for electrical workplace safety in the world, based off the NFPA 70E® *Standard for Electrical Safety in the Workplace*. And we have helped companies worldwide prioritize electrical workplace safety and improve performance. Designed by the experts, NFPA offers a wide range of electrical workplace safety solutions including trainings, certifications, and on demand content to support your organization and help reduce incidents—meaning increased efficiency, less downtime, fewer fines, and safer employees.

ELECTRICAL-RELATED INCIDENTS

12,120

number of non-fatal injuries between 2014 and 2018¹

Electrical related injuries consistently rank among top 10 OSHA citations.²
