Scope
This Committee shall have primary responsibility for documents on
the prevention, control, and extinguishment of fire and explosions
resulting from dusts produced by the processing, handling, and
storage of grain, starch, food, animal feed, flour, and other
agricultural products. The Technical Committee shall also be
responsible for requirements relating to the protection of life and
property from fire and explosion hazards at agricultural and food
products facilities.

Responsibility
Standard for the Prevention of Fires and Dust Explosions in Agricultural and
Food Processing Facilities (NFPA 61)

Scope
This Committee shall have primary responsibility for documents on
(1) developing data on the properties of chemicals enabling proper
selection of electrical equipment for use in atmospheres containing
flammable gases, vapors or dusts; (2) making recommendations for
the prevention of fires and explosions through the use of
continuously purged, pressurized, explosion-proof, or dust-ignition-
proof electrical equipment where installed in such chemical
atmospheres.

Responsibility
Recommended Practice for the Classification of Combustible Dists and of
Hazardous (Classified) Locations for Electrical Installations in Chemical
Process Areas (NFPA 499)
Recommended Practice for the Classification of Flammable Liquids, Gases,
or Vapors and of Hazardous (Classified) Locations for Electrical
Installations in Chemical Process Areas (NFPA 497)
Standard for Purged and Pressurized Enclosures for Electrical Equipment
(NFPA 496)

Electrical Equipment Evaluation
EEE-AAA Technical Committee
Staff Liaison Mike McCabe
This committee shall have primary responsibility for documents covering the performance of field evaluations of electrical equipment. This committee shall also have primary responsibility for documents on the competency of companies and individuals within those companies conducting field evaluations. This committee shall have primary jurisdiction, but shall report to the Association through the National Electrical Code Correlating Committee.

**Scope**

This committee shall have primary responsibility for documents covering the performance of field evaluations of electrical equipment. This committee shall also have primary responsibility for documents on the competency of companies and individuals within those companies conducting field evaluations. This committee shall have primary jurisdiction, but shall report to the Association through the National Electrical Code Correlating Committee.

**Responsibility**

Recommended Practice and Procedures for Unlabeled Electrical Equipment Evaluation (NFPA 791)

Standard for Competency of Third-Party Field Evaluation Bodies (NFPA 790)

</table>
Scope
This Committee shall have the primary responsibility for documents relating to preventive maintenance of electrical, electronic, and communications systems and equipment used in industrial and commercial type applications with the view of: (1) reducing loss of life and property, and (2) improving reliability, performance, and efficiency in a cost-effective manner. The purpose is to provide generally applicable procedures for preventive maintenance that have broad application to the more common classes of industrial and commercial systems and equipment without duplicating or superseding instructions that manufacturers normally provide. This Committee shall report to Correlating Committee of the National Electrical Code.

Responsibility
Recommended Practice for Electrical Equipment Maintenance (NFPA 70B)

**Scope**

This Committee shall have primary responsibility for documents on performance criteria for the selection and assembly of the components for emergency and standby power systems in buildings and facilities, including categories of power supplies, transfer equipment, controls, supervisory equipment, and all related electrical and mechanical auxiliary or accessory equipment needed to supply emergency or standby power to the utilization equipment. The Committee also shall be responsible for criteria on the maintenance and testing of the system. This Committee does not cover requirements for the application of emergency power systems, self-contained emergency lighting units, and electrical wiring, except that wiring that is an integral part of the system up to the load side of the transfer switch(es). This Committee shall report to Correlating Committee of the National Electrical Code.

**Responsibility**

- Standard for Emergency and Standby Power Systems (NFPA 110)
- Standard on Stored Electrical Energy Emergency and Standby Power Systems (NFPA 111)

**Emergency Responders Occupational Health**

This Committee shall have primary responsibility for documents on 
protective clothing and protective equipment, except respiratory 
protective equipment, that provides hand, foot, torso, limb, and 
head protection for fire fighters and other emergency services 
responders during incidents that involve hazardous materials 
operations. These operations involve the activities of rescue; 
hazardous material confinement, containment, and mitigation; and 
property conservation where exposure to substances that present an 
unusual danger to responders are present or could occur due to 
toxicity, chemical reactivity, decomposition, corrosiveness, or 
similar reactions.

Additionally, this Committee shall have primary responsibility for 
documents on the selection, care, and maintenance of hazardous 
materials protective clothing and protective equipment by fire and 
emergency services organizations and personnel.

**Scope**

**Responsibility**

Scope
This Committee shall have primary responsibility for documents on special operations protective clothing and protective equipment, except respiratory equipment, that provides hand, foot, torso, limb, head, and interface protection for fire fighters and other emergency services responders during incidents involving special operations functions including, but not limited to, structural collapse, trench rescue, confined space entry, urban search and rescue, high angle/mountain rescue, vehicular extraction, swift water or flooding rescue, contaminated water diving, and air operations.

This Committee shall also have primary responsibility for documents on station/work uniform garments that are not of themselves primary protective garments but can be combined with a primary protective garment to serve dual or multiple functions.

Additionally, this Committee shall have primary responsibility for documents on the selection, care, and maintenance of special operations protective clothing and equipment by fire and emergency services organizations and personnel.

Scope
This committee shall have primary responsibility for documents on protective ensembles, except respiratory protection, that provides head, limb, hand, foot, torso, and interface protection for fire fighters and other emergency services responders during incidents involving structural fire fighting operations or proximity fire fighting operations.

Structural fire fighting operations include the activities of rescue, fire suppression, and property conservation during incidents involving fires in buildings, enclosed structures, vehicles, marine vessels, or like properties.

Proximity fire fighting operations include the activities of rescue, fire suppression, and property conservation during incidents involving commercial and military aircraft fires, bulk flammable gas fires, bulk flammable and combustible liquids fires, combustible metal fires, exotic fuel fires, and other such fires that produce very high levels of radiant heat as well as convective and conductive heat.

Additionally, this committee shall have primary responsibility for documents on the selection, care, and maintenance of structural and proximity fire fighting protective ensembles by fire and emergency services organizations and personnel.

Scope
This Committee shall have primary responsibility for documents on a Fire Prevention Code that includes appropriate administrative provisions, to be used with the National Fire Codes for the installation, operation, and maintenance of buildings, structures, and premises for the purpose of providing safety to life and property from fire and explosion. This includes development of requirements for, and maintenance of, systems and equipment for fire control and extinguishment. Safety to life of occupants of buildings and structures is under the primary jurisdiction of the Committee on Safety to Life.

Responsibility
Fire Code (NFPA 1)

---

**Scope**

This Committee shall have primary responsibility for documents on fire testing procedures, for reviewing existing fire test standards and recommending appropriate action to NFPA, for recommending the application of and advising on the interpretation of acceptable test standards for fire problems of concern to NFPA technical committees and members, and for acting in a liaison capacity between NFPA and the committees of other organizations writing fire test standards. This Committee does not cover fire tests that are used to evaluate extinguishing agents, devices, or systems.

**Responsibility**

Recommended Practice for a Field Flame Test for Textiles and Films (NFPA 705)  
Recommended Practice for Determining Smoke Generation of Solid Materials (NFPA 258)  
Standard for Fire Testing of Passive Protection Materials for Use on LP-Gas Containers (NFPA 290)  
Standard Method of Fire Test for Determining the Heat Release Rate of Roofing Assemblies with Combustible Above-Deck Roofing Components (NFPA 276)  
Standard Method of Fire Test for Individual Fuel Packages (NFPA 289)  
Standard Method of Fire Tests for the Evaluation of Thermal Barriers (NFPA 275)  
Standard Method of Test for Critical Radiant Flux of Floor Covering Systems Using a Radiant Heat Energy Source (NFPA 253)  
Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes (NFPA 261)  
Standard Method of Test for Flame Travel and Smoke of Wires and Cables for Use in Air-Handling Spaces (NFPA 262)  
Standard Methods of Fire Tests for Evaluating Contribution of Wall and Ceiling Interior Finish to Room Fire Growth (NFPA 286)  
Standard Methods of Fire Tests for Evaluating Room Fire Growth Contribution of Textile or Expanded Vinyl Wall Coverings on Full Height Panels and Walls (NFPA 265)  
Standard Methods of Fire Tests for Flame Propagation of Textiles and Films (NFPA 701)  
Standard Methods of Fire Tests of Door Assemblies (NFPA 252)  
Standard Methods of Fire Tests of Horizontal Fire Door Assemblies Installed in Horizontal Fire Resistance-Rated Assemblies (NFPA 288)  
Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered Furniture (NFPA 260)  
Standard Methods of Tests for Evaluating Fire and Ignition Resistance of Upholstered Furniture Using a Flaming Ignition Source (NFPA 277)  
Standard on Fire Test for Window and Glass Block Assemblies (NFPA 257)  
Standard Test Method for Developing Toxic Potency Data for Use in Fire Hazard Modeling (NFPA 269)  
Standard Test Method for Mattresses for Correctional Occupancies (NFPA 284)  
Standard Test Method for Measurement of Smoke Obscuration Using a Conical Radiant Source in a Single Closed Chamber (NFPA 270)  
Standard Test Method to Evaluate Fire Performance Characteristics of Pipe Insulation (NFPA 274)

This Committee shall have primary responsibility for documents on the manufacture, selection, care, and use of garments and equipment used for protection of industrial personnel where there is potential for flash fire. Industrial personnel include workers who are potentially or may accidentally be exposed to hydrocarbon or combustible dust flash fires, and not electrical flashes. These documents do not cover fire fighters and other emergency services personnel.

Responsibility

Standard on Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire (NFPA 2112)
Standard on Selection, Care, Use, and Maintenance of Flame-Resistant Garments for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire (NFPA 2113)

Scope
This committee shall have primary responsibility for documents covering the design, installation, operation, and maintenance of hybrid (water and inert gas) fire extinguishing systems that use a combination of atomized water and inert gas to extinguish fire. This scope does not include systems that use only inert gas or only atomized water (water mist) to achieve extinguishment. It also does not include twin fluid water mist systems that use inert gas to propel and/or atomize water mist droplets without generating a significant inert gas concentration in the protected space.

Responsibility
Standard on Hybrid (Water and Inert Gas) Fire Extinguishing Systems (NFPA 770)

Scope
This Committee shall have primary responsibility for documents on the storage, transfer, and use of industrial gases. Included are the storage and handling of such gases in their gaseous or liquid phases; the installation of associated storage, piping, and distribution equipment; and operating practices. The Committee also has a technical responsibility for contributions in the same areas for medical gases and clean rooms. The Committee shall coordinate the material on gaseous and liquid hydrogen storage and use with the Hydrogen Technology Committee.

Responsibility
Compressed Gases and Cryogenic Fluids Code (NFPA 55)
Standard for the Design and Installation of Oxygen-Fuel Gas Systems for Welding, Cutting, and Allied Processes (NFPA 51)

Scope  
This Committee shall have primary responsibility for documents on  
safety code for gas piping systems on consumers' premises and the  
installation of gas utilization equipment and accessories for use  
with fuel gases such as natural gas, manufactured gas, liquefied  
petroleum gas in the vapor phase, liquefied petroleum gas-air  
mixtures, or mixtures of these gases, including:  a. The design,  
fabrication, installation, testing, operation, and maintenance of gas  
piping systems from the point of delivery to the connections with  
each gas utilization device. Piping systems covered by this Code  
are limited to a maximum operating pressure of 125 psig. For  
purposes of this Code, the point of delivery is defined as the outlet  
of the meter set assembly, or the outlet of the service regulator or  
service shutoff valve where no meter is provided.  b. The  
installation of gas utilization equipment, related accessories, and  
their ventilation and venting systems.  

Responsibility

**Scope**

This Committee shall have primary responsibility for documents on the manufacture, transportation, and storage of consumer and display fireworks, pyrotechnic special effects, and model and high power rocket motors. This Committee shall have primary responsibility for documents on the use of display fireworks and for model and high power rocketry, and the construction, launching, and other operations that involve model and high power rocket motors.

This Committee does not have responsibility for documents on the retail sales and associated storage of consumer fireworks nor on the use of consumer fireworks by the general public; on the use of pyrotechnic special effects before a proximate audience; nor on the manufacture, transportation, storage for use of military, automotive, agricultural, and industrial pyrotechnics.

**Responsibility**

- Code for Model Rocketry (NFPA 1122)
- Code for Fireworks Display (NFPA 1123)
- Code for High Power Rocketry (NFPA 1127)
- Code for the Manufacture of Model Rocket and High-Power Rocket Motors (NFPA 1125)
- Code for the Manufacture, Transportation, and Storage of Fireworks and Pyrotechnic Articles (NFPA 1124)

Scope
This Committee shall have primary responsibility for documents on
the proper configuration, performance, installation, and operation of
public emergency alarm reporting systems and auxiliary alarm
systems. The Committee scope shall include systems that use a
communication infrastructure that is publicly owned, operated, and
controlled. Reporting of alarms by voice over the public switched
telephone network utilizing the Universal Emergency Number 9-1
-1, or any other telephone number that can be dialed, is outside the
scope of this committee.
