REPORT OF THE NFPA MOTIONS COMMITTEE*
ON
FALL 2012 REVISION CYCLE DOCUMENTS

1. Introduction. This is the Motions Committee Report on Documents in the Fall 2012 Revision Cycle. The report identifies Certified Amending Motions for Documents in Fall 2012 Revision Cycle that may be presented at the 2013 Association Technical Meeting Chicago, IL on June 10-13, 2013. The Report also identifies Fall 2012 Revision Cycle Consent Documents.

This Report will be incorporated into a Final Motions Committee Report for the 2013 Association Technical Meeting which will be made available by May 5, 2013. In addition to Consent Documents and Certified Amending Motions on Documents in the Fall 2012 Revision Cycle, the Final Report will include Consent Documents and Certified Amending Motions on Documents in the Annual 2013 Revision Cycle.

The Motions Committee, consisting of NFPA Standards Council Members J. Pauley (Chair), K. Bell, D. Bliss, J. Harrington, D. McDaniel, J. Milke, and R. Owen has been appointed by the Chair of the Standards Council to certify proper amending motions and otherwise review and act, in accordance with 2.1 through 2.5 of the **NFPA Technical Meeting Convention Rules (Convention Rules)**, on Notices of Intent to Make a Motion (NITMAMs) that have been submitted on NFPA Codes and Standards (Documents), that have been processed in the Fall 2012 Revision Cycle.

Under NFPA rules, persons wishing to make an allowable amending motion at an NFPA Technical Meeting must declare their intention to do so by filing within the published deadlines, a NITMAM setting forth information about the intended motion. The Motions Committee, in accordance with NFPA rules, reviews each NITMAM to determine whether the intended motion is a proper motion. The Motions Committee can also, in consultation with the submitter of the NITMAM, clarify the intent of, and if appropriate, restate the motion, and, in certain circumstances, group motions that are dependent on each other together so that they can be made as a single motion. In addition, the Motions Committee may take such other action or make such other recommendations as will facilitate the fair and efficient consideration of motions within the available time. The Motions Committee certifies for presentation at the appropriate Association Technical Meeting all proper Amending Motions, either as submitted or as clarified, restated or grouped, as explained above. The Motions Committee then publishes a report setting forth, at a minimum, each Certified Amending Motion, the person(s) authorized to make such motions, and the recommended order in which motions should be entertained. In addition, the Report may include Motions Committee notes or comments aimed at assisting the Presiding Officer or facilitating the understanding of or the orderly and efficient consideration of the motion when presented at the Association Technical Meeting.

The Certified Amending Motions for Documents reporting in the Fall 2012 Revision Cycle are set forth in Part II of this report. Part III typically summarizes motions that were not certified by
the Motions Committee. In this case, however, all motions received on Fall 2012 documents were certified. Part IV of this Report lists those Consent Documents in the Fall 2012 Revision Cycle that have no Certified Amending Motions. In reviewing this report, the following should be considered:

- The only Amending Motions allowed at an Association Technical Meeting are Certified Amending Motions set forth in a report of the Motions Committee and any Follow-Up Motions, that is, motions that may become necessary as a result of a previous successful Amending Motion. (See Convention Rules at 3.4.4)

- Certified Amending Motions can only be made by person(s) listed in this Report as authorized to make the motion, or by persons they have designated in writing to the Standards Council Secretary as their Designated Representative. [See Regulations Governing Committee Projects (Regs.) at 4.6.8.1]

- The Certified Amending Motions set forth in this report are proper and permissible; they will, however, only be presented for the consideration of the membership at the 2013 Association Technical Meeting if a person authorized to make the motion (or their Designated Representative) actually appears, signs in no later than one hour before the beginning of the session (See Convention Rules at 2.7), and makes the motion in accordance with NFPA rules.

- This Report concerns only Fall 2012 Revision Cycle Documents with Certified Amending Motions for consideration at the 2013 Association Technical Meeting in Chicago, IL on June 10-13, 2013. As further set forth for the above, other Documents reporting to the 2013 Association Technical Meeting (Annual 2013 Revision Cycle Documents) will be treated in separate Reports.

- The Report on Comments for Annual 2013 Revision Cycle Documents will be available by February 22, 2013. The deadline for submitting NITMAMs on these Annual 2013 Revision Cycle Documents is April 5, 2013. The NITMAMs for the Annual 2013 Revision Cycle Documents will be reviewed for certification by the Motions Committee, and published in the Final Motions Committee Report for the 2013 Association Technical Meeting by May 3, 2013.

- The Report on Comments for the National Electrical Code® (NEC®) reporting at the Annual 2013 Association Technical Meeting will be available by March 22, 2013. The deadline for submitting NITMAMs on this document is May 5, 2013. The NITMAMs for the NEC® will be reviewed for certification by the Motions Committee, and published in the NEC® Final Motions Committee Report for the 2013 Association Technical Meeting by May 17, 2013.

- The Motions Committee may refine or revise the sequencing and/or grouping of previously published motions through amendments to this Report, or in its Final Motions Committee Report.

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org

Posted November 2, 2012 Report of the Motions Committee: Fall 2012 Revision Cycle
II. Certified Amending Motions. The Motions Committee has received and reviewed NITMAMs on three Fall 2012 Revision Cycle Documents. The Committee has determined that three Documents have at least one Certified Amending Motion that may be presented for action at the 2013 Association Technical Meeting. The Motions Committee did approve a request by a submitter to withdraw one NITMAM on NFPA 10. NITMAMs that have been withdrawn by the submitter, before the NITMAM closing date are not addressed in this Report. See Regs. at 4.5.2. The three Documents with Certified Amending Motions are as follows:

NFPA 801  Standard for Fire Protection for Facilities Handling Radioactive Materials
NFPA 1061  Standard for Professional Qualifications for Public Safety Telecommunicator
NFPA 1851  Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting

Table A summarizes the motions that have been reviewed and certified by the Motions Committee for Documents processed in the Fall 2012 Revision Cycle for consideration at the 2013 Association Technical Meeting in Chicago, IL on June 10-13, 2013.

Note that, in order for any one of the above Documents to actually be presented for action at the 2013 Association Technical Meeting, an authorized maker of at least one Certified Amending Motion on that Document must sign-in pursuant to 2.7 of the Convention Rules. Where no sign-ins on a Document have taken place, the Document will be considered a Consent Document and will be forwarded directly to the Standards Council for action in accordance with the Regs. at 4.8. See Regs. at 4.5.5 and 4.5.6.

III. NITMAMs that were not certified by the Motions Committee. In the Fall 2012 Revision Cycle there were no motions that were reviewed by the Motions Committee and not certified.

IV. Consent Documents. Where a Document in the Fall 2012 Revision Cycle receives no NITMAMs, or receives NITMAMs which are not certified as amending motions by the Motions Committee, the Document is considered a Consent Document. A Consent Document is not

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org*
presented to the Association Technical Meeting and is, instead, forwarded directly to the Standards Council for issuance. (See Regs. at 4.5.6)

Following are the forty-four (44) Consent Documents in the Fall 2012 Revision Cycle that will be forwarded directly to the Standards Council for issuance on November 27, 2012. The effective date of these Documents will be December 17, 2012.

NFPA 10   Standard for Portable Fire Extinguishers
NFPA 14   Standard for the Installation of Standpipe and Hose Systems
NFPA 17   Standard for Dry Chemical Extinguishing Systems
NFPA 17A  Standard for Wet Chemical Extinguishing Systems
NFPA 22   Standard for Water Tanks for Private Fire Protection
NFPA 36   Standard for Solvent Extraction Plants
NFPA 52   Vehicular Gaseous Fuel Systems Code
NFPA 67   Guideline on Explosion Protection for Gaseous Mixtures in Pipe Systems
NFPA 68   Standard on Explosion Protection by Deflagration Venting
NFPA 70B  Recommended Practice for Electrical Equipment Maintenance
NFPA 140  Standard on Motion Picture and Television Production Studio Soundstages, Approved Production Facilities, and Production Locations
NFPA 211  Standard on Chimneys, Fireplaces, Vents, and Solid Fuel-Burning Appliances
NFPA 225  Model Manufactured Home Installation Standard
NFPA 241  Standard for Safeguarding Construction, Alteration, and Demolition Operations
NFPA 259  Standard Test Method for Potential Heat of Building Materials
NFPA 260  Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered Furniture
NFPA 261  Standard Method of Test for Determining Resistance of Mock-Up Upholstered Furniture Material Assemblies to Ignition by Smoldering Cigarettes
NFPA 270  Standard Test Method for Measurement of Smoke Obscuration Using a Conical Radiant Source in a Single Closed Chamber
NFPA 274  Standard Test Method to Evaluate Fire Performance Characteristics of Pipe Insulation
NFPA 289  Standard Method of Fire Test for Individual Fuel Packages
NFPA 290  Standard for Fire Testing of Passive Protection Materials for Use on LP-Gas Containers
NFPA 495  Explosive Materials Code
NFPA 496  Standard for Purged and Pressurized Enclosures for Electrical Equipment
NFPA 498  Standard for Safe Havens and Interchange Lots for Vehicles Transporting Explosives
NFPA 501  Standard on Manufactured Housing
NFPA 501A Standard for Fire Safety Criteria for Manufactured Home Installations, Sites, and Communities
NFPA 505  Fire Safety Standard for Powered Industrial Trucks Including Type Designations, Areas of Use, Conversions, Maintenance, and Operations
NFPA 551  Guide for the Evaluation of Fire Risk Assessments
NFPA 705  Recommended Practice for a Field Flame Test for Textiles and Films
NFPA 900  Building Energy Code

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org

Posted November 2, 2012     Report of the Motions Committee: Fall 2012 Revision Cycle
NFPA 1006  Standard for Technical Rescuer Professional Qualifications
NFPA 1404  Standard for Fire Service Respiratory Protection Training
NFPA 1451  Standard for Fire and Emergency Services Vehicle Operations Training Program
NFPA 1600  Standard on Disaster/Emergency Management and Business Continuity Programs
NFPA 1852  Standard on Selection, Care, and Maintenance of Open-Circuit Self-Contained Breathing Apparatus (SCBA)
NFPA 1855  Standard for Selection, Care, and Maintenance on Protective Ensembles for Technical Rescue Incidents
NFPA 1925  Standard on Marine Fire-Fighting Vessels
NFPA 1962  Standard on Care, Use, Inspection, Service Testing and Replacement of Fire Hose, Couplings, Nozzles and Fire Hose Appliances
NFPA 1964  Standard for Spray Nozzles
NFPA 1981  Standard on Open-Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services
NFPA 1989  Standard on Breathing Air Quality for Emergency Services Respiratory Protection
NFPA 1999  Standard on Protective Clothing for Emergency Medical Operations

**Note:** In accordance with 1.6.2(a) of the Regs, there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the issuance of any Consent Document listed in this report. The final date to file any such appeal is November 17, 2012.

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org
