

# 2022 Technical Meeting Agenda

Certified Amending Motions (CAMs)

June 8-9, 2022

The 2022 Technical Meeting Agenda sets forth the established order of Certified Amending Motions (“CAM”) for presentation at the 2022 Technical Meeting on June 8<sup>th</sup> and 9<sup>th</sup>, as approved by the Motions Committee. A Presiding Officer will call each CAM in the order in which they appear within this agenda, on the days identified. Should a proper follow-up motion be made and ruled in order, the Presiding Officer will entertain debate and vote before continuing with the established and posted agenda.

**Special Note:** The 2022 Report of the Motions Committee is available for review at [www.nfpa.org/2022techsession](http://www.nfpa.org/2022techsession), as are the daily reports of position statements submitted between May 23<sup>rd</sup> and June 3<sup>rd</sup>. The Report of the Motions Committee includes all Certified Amending Motions for the Annual 2022 and Fall 2021 revision cycles, as well as the ballot for any successful CAMs which require balloting in accordance with Table 1 of the *Regulations Governing the Development of NFPA Standards*. Additionally, the complete technical committee records (First Draft Report and Second Draft Report), including all recommended changes to the text of each standard, are available for review on the Next Edition tab of the specific Document Information page ([www.nfpa.org/document#](http://www.nfpa.org/document#)).
