Water-Based Systems (INM-AAA)
Members, NFPA Standards Council (AAD-AAA)
Individuals Providing Appeal Commentary

*NOTE: Participants in NFPA's codes and standards making process should know that limited review of this decision may be sought from the NFPA Board of Directors. For the rules describing the available review and the method for petitioning the Board for review, please consult section 1-7 of the Regulations Governing the Development of NFPA Standards and the NFPA Regulations Governing Petitions to the Board of Directors from Decisions of the Standards Council. Notice of the intent to file such a petition must be submitted to the Clerk of the Board of Directors within 15 calendar days of the Date of Decision noted in the subject line of this letter.

Standards Council Decision (Final):	D#16-4
Standards Council Agenda Item:	SC#16-8-1-b
Date of Decision*:	4 August 2016
NFPA 25, <i>Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems</i> , 2017 Edition	

SUMMARY OF ACTION (for convenience only; not part of official decision): *The Standards Council voted to deny the appeal to overturn the Association action on CAM 25-2 and Accept Public Comment Nos. 56 and 57.*

DECISION:

At its meeting of August 3 – 4, 2016, the Standards Council considered an appeal from Marcelo Hirschler of GBH International. The appeal requests that the Standards Council overturn the Association action on CAM 25-2 and Accept Public Comment Nos. 56 and 57 for the 2017 Edition of NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*. Specifically, the appeal requests that text from Sections 3.3.40.6, 3.3.40.12, 3.3.40.15 and 3.3.40.17 of the 2014 Edition of NFPA 25 be moved to, and become the text of, a new definition for “specialized sprinkler” in a newly-created Section 4.10 of the 2017 Edition of NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*.

As background, the Technical Committee rejected Public Comments Nos. 56 and 57. Mr. Hirschler filed two Notices of Intent to Make a Motion (NITMAM) to Accept Public Comment Nos. 56 and 57. The Motions Committee certified these NITMAMs as a Group Amending Motion 25-2. CAM 25-2 failed on the floor of the NFPA Technical Meeting.

The text subject to appeal did not gain sufficient support within the standards development process for inclusion in the 2017 Edition of NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*. The appeal requests that the Council overturn the results yielded by the standards development process. On appeal, the Council accords great respect and deference to the NFPA standards development process. In conducting its review, the Council will overturn the results of that process only where a clear and substantial basis for doing so is demonstrated. The Council has reviewed the entire record concerning this matter and has considered all the arguments put forth in this appeal. In the view of the Council, this appeal does not present any clear and substantial basis upon which to overturn the results yielded by the NFPA standards development process. Accordingly, the Council has voted to deny the appeal. The effect of this action is that the 2017 Edition of NFPA 25, *Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems* will not include Public Comments Nos. 56 and 57 and will not include a new definition of “specialized sprinkler”.
