

18-8-52-d	The Council heard an update on the formation of the new committee for fire investigation units and voted to defer action until the December 2018 Council Meeting.
<b>18-8-53</b>	The Council heard a report of the Policy and Procedures Task Group.
<b>18-8-54</b>	The Council heard a report from the Recording Secretary on the April 2018 Minutes, which were approved with editorial corrections.
<b>18-8-55</b>	<p>The Council voted to approve the dates and locations of upcoming Council meetings, as follows:</p> <p>December 6-7, 2018 (Revised) TBD</p> <p>April 2-3, 2019 TBD</p> <p>August 5-7, 2019 Quincy, MA</p> <p>December 3-4, 2019 TBD</p>
<b>18-8-56</b>	The Council heard an update from the Council Task Group established on Contamination Control. Recognizing that public inputs and public comments are in process specifically relating to contamination control and that various NFPA Standards currently have contamination control requirements, the Council encourages that work in these standards continue. Council will continue discussions in December on the long term overall standardization solution to best address all aspects of contamination control in the responder segment and across new and existing NFPA Standards.

Respectfully submitted,

Linda J. Fuller, Recording Secretary  
NFPA Standards Council
