

	<p>After a review of all information provided, the Council voted to take no action at this time and directed NFPA Staff to determine if this proposed project would be a good fit for the Fire Fighter Professional Qualifications Committee as a new document or include these job requirements within NFPA 1001. Staff is to report back to the Council in April.</p>
18-12-27	<p>The Council considered the request of Jason Scott of NASA to develop a standard to establish guidance on the construction and operation of facilities used to house, maintain, and deploy rockets (solid and liquid), spaceplanes, and other similar vehicles.</p> <p>After a review of all information provided, the Council voted to approve the development of the new technical committee and directed that a call for members interested in serving be published. Staff will return to the Council, in April, with a proposed start-up roster and a scope for the committee.</p>
18-12-28	<p>The Council heard an update from the Task Group charged with correlating the definitions, requirements, and scopes of NFPA 70 (Article 506), NFPA 652, NFPA 654, NFPA 484, and NFPA 499 to provide clear guidance of responsibility for determining when combustible dusts are a hazard to ensure that NFPA Standards are complementary to one another.</p> <p>The Council directs the Task Group to continue with their plan, and if need be, submit Tentative Interim Amendments to correlate the definitions, requirements and scopes of these documents.</p>

Respectfully submitted,

Linda J. Fuller, Recording Secretary
NFPA Standards Council
