*NOTE: Participants in NFPA's standards development process should know that limited review of this decision may be sought from the NFPA Board of Directors. For the rules describing the available review and the method for petitioning the Board for review, please consult section 1-7 of the Regulations Governing the Development of NFPA Standards and the NFPA Regulations Governing Petitions to the Board of Directors from Decisions of the Standards Council. Notice of the intent to file such a petition must be submitted to the Clerk of the Board of Directors within 15 calendar days of the publication date of this Decision.

Standards Council Decision (Final):	D#20-2
Standards Council Agenda Item:	SC#20-12-10-d
Date of Decision:	3 December 2020
TIA No. 1478 on NFPA 70 [®] , <i>National Electrical Code</i> [®] , 2020 Edition	

SUMMARY OF ACTION (for convenience only; not part of official decision): The Standards Council voted to deny this appeal seeking to overturn the Code-Making Panel 6 and the National Electrical Code Correlating Committee ballot results and issue TIA No. 1478 on NFPA 70[®], *National Electrical Code*[®], 2020 Edition.

DECISION:

At its meeting of December 2-3, 2020, the Standards Council considered an appeal from Joseph Andre, Bothell, Washington. The appeal requests that the Standards Council overturn the Code-Making Panel 6 and Correlating Committee ballot results and issue TIA No. 1478 on the 2020 Edition of NFPA 70[®], *National Electrical Code*[®]. Specifically, the appeal requests that the Standards Council issue TIA No. 1478 which seeks to revise Section 334.10 items (2), (3), and (4).

As background, TIA No. 1478 was balloted through Code-Making Panel 6 (CMP 6) and the National Electrical Code Correlating Committee (CC) in accordance with the *Regulations Governing the Development of NFPA Standards (Regs)* to determine whether the necessary three-fourths majority support was achieved on technical merit, correlation and emergency nature required to establish recommendation for issuance. The ballot failed to achieve the necessary support of CMP 6 on both technical merit and emergency nature, while the CC ballot passed on correlation but failed on emergency nature.

When a TIA fails to achieve the recommendation of the responsible committees, the resulting recommendation of the standards development process is to not issue the TIA.

On appeal, the Council accords great respect and deference to the NFPA standards development process. In conducting its review, the Council will overturn the results of that process only where a clear and substantial basis for doing so is demonstrated.

The Council has reviewed the entire record concerning this matter and has considered all the arguments put forth in this appeal. In the view of the Council, this appeal does not present any clear and substantial basis upon which to overturn the results yielded by the NFPA standards development process. Accordingly, the Council has voted to deny the appeal. The effect of this action is that the text of TIA No. 1478 will not be included in NFPA 70, *National Electrical Code*, 2020 Edition.

Council is aware that there are Public Inputs proceeding through the current revision cycle which address this issue that was subject to this appeal, and encourage all interested stakeholders to continue participating in the NFPA standards development process.

Council Members Michael Johnston and John Kovacik recused themselves on the deliberations and vote on this issue.
