

21-12-25-a	<p>The Council voted to approve the request for processing of a Tentative Interim Amendment (TIA) on the 2019 edition of NFPA 484. Council found this request to process a TIA on a prior edition to be necessary to amend a previously issued TIA related to agenda items 21-12-10, 21-12-15, and 21-12-16 and align the text as was the Council directed task. TIAs on the involved standards are to be processed in accordance with the <i>Regulations Governing the Development of NFPA Standards</i> in time for Council action at the April 2022 meeting.</p> <p>Council member Michael Johnston recused himself from deliberations and vote on this request.</p>
