| Date of Decision*: | 20 October 2010 |
| Request of the TC on Pyrotechnics to Process Two New Draft Standards: <i>Standard Method of Fire Test for Flame Breaks and Standard Method of Fire Test for Covered Fuse on Consumer Fireworks</i> | |

Dear Interested Parties:

At its meeting of 19-20 October 2010, the Standard Council considered an appeal from the Technical Committee on Pyrotechnics, requesting that two new standards be initiated.

After reviewing and considering all the information available to it, the Council voted to approve the Technical Committee's request to initiate standards development activities for developing fire test standards for flame breaks and covered fuses. Specifically, the Technical Committee is granted permission to enter the draft standards entitled *Standard Method of Fire Test for Flame Breaks* and *Standard Method of Fire Test for Covered Fuse on Consumer Fireworks*, previously submitted to the Council Secretary, into the Annual 2012 revision cycle.

A full decision on this agenda item will be issued in due course, and will automatically be sent to all interested parties as soon as it becomes available.

Sincerely,

A handwritten signature in black ink that reads "Amy Beasley Cronin".
