

**UFF Position Statement: UAS Guidance Document & UAS Technical Committee**

The Metropolitan/Urban Fire Forum Fire Chiefs support and endorse the IAFC web-based UAS Guidance Document that will provide information and direction to the Fire Service on the regulations, deployment and application of UAS Technology. The Metro/Urban Fire Forum Chiefs will also support the work of the NFPA Technical committee in the development of a UAS Standard. The Metro/Urban Fire Forum Chiefs will take an active role in the continued research and development of UAS Technology to enhance firefighter safety and operational effectiveness.

Approved unanimously at the September 22, 2016 Urban Fire Forum
