Plan and Practice a Home Fire Drill

1. Draw your escape plan. Know where to meet outside.

2. If possible, plan two ways out of every room.

3. Go over the plan with everyone in your home. Identify people who need help.

4. Push the smoke alarm button to start the fire drill.
Get out fast and stay out.

If there is smoke and fire blocking your way out, take your second way out.

Close the doors behind you when you leave.

If all ways are blocked by smoke, get low and go below smoke.

Go to your meeting place. Call 9-1-1 or your fire emergency number from a neighbor’s home or from your meeting place.
