Characteristic features

The A3 e-tron can be identified by the e-tron logo, the orange cables (e. g. in engine compartment) and the charging socket.

Vehicle immobilization

1. Gear lever in position park „P“
2. Apply parking brake

Switch off ignition

Press START-ENGINE-STOP button without depressing brake pedal.

⚠️ Warning: When pressing the START-ENGINE-STOP button and depressing the brake pedal at the same time, the engine will start!
Deactivation of High Voltage System

Alternative 1 – Engine compartment accessible
1. Localize emergency disconnect
2. Open safety disconnect

Alternative 2 – Emergency disconnect fuse in passenger compartment
1. Identify emergency fuse
2. Disconnect emergency fuse

Fuse box – **left-hand drive** (steering wheel left)

Fuse box in glove compartment
**right-hand drive** (steering wheel right)
Disconnect 12 V battery

The 12 V battery is located in the luggage compartment below the luggage compartment floor. The cables of both terminals are fed out directly through the plastic cover.

Disconnect charging cable

Vehicle connected to charging station:
1. Unlock vehicle via remote control or central locking switch
2. Disconnect charging cable

If required, follow further steps of this rescue data sheet
