1. **Identification / recognition**

⚠️ Lack of engine noise does not mean vehicle is off: vehicle movement capability exists until vehicle is fully shut down. Always wear appropriate PPE.

**Nameplate**

The BOLT EV can be identified by this emblem that appears on the liftgate of the vehicle.

**First Responder Information Label**

2. **Immobilization / stabilization / lifting**

**IMMOBILIZE VEHICLE:**

1. Block the wheels.
2. Pull the Electric Parking Brake (EPB) switch.
3. Press the P (Park) button.

**LIFTING POINTS:**

▲ Indicates primary lifting locations.

3. **Disable direct hazards / safety regulations**

**MAIN METHOD:**

1. Press the POWER button to disable vehicle propulsion.
2. Remove the keys from the vehicle.
3. Open the hood.
4. Double cut the low voltage cable marked by the yellow tape.

**Do NOT cut any orange colored high voltage cables.**

⚠️ After disabling 12-volt power, wait at least 10 seconds to allow any un-deployed airbag reserve energy to dissipate and wait at least 1 minute to allow high voltage energy to discharge.
VEHICLE AT CHARGE STATION:
Terminate charging and disconnect the charge cable from the vehicle.

4. Access to the occupants
Refer to the front page for illustrations high strength zones and specific safety related component locations.

- The windshield is made of Laminated Glass
- The side door windows and liftgate window are made of Tempered Glass

5. Stored energy / liquids / gases / solids

Li-ion

Coolant leaking from the battery pack can become unstable and a risk for thermal runaway. Check the battery pack temperature using a thermal imaging camera.

6. In case of fire

Potential for Battery Re-Ignition.

A battery on fire will not explode.

Use copious amounts of water to cool the battery to extinguish the fire.
7. **In case of submersion**

All high voltage components and the high voltage battery enclosure are connected to the vehicle chassis ground. If the vehicle is immersed in water, you will not be electrocuted by touching the vehicle.

8. **Towing / transportation / storage**

Flatbed towing is the best way to transport the vehicle.

9. **Important additional information**

10. **Explanation of pictograms used**
