PRECAUTIONS

For GILLIG 5-Tank CNG Bus

WARNING

Storage pressure of CNG (Compressed Natural Gas) is up to 4,000 psi. Avoid cutting all fuel supply piping.

See reverse of this card for system shutdown information.

WARNING

Beware of any fire, sparks, or electrostatic charges before approaching the vehicle.

WARNING

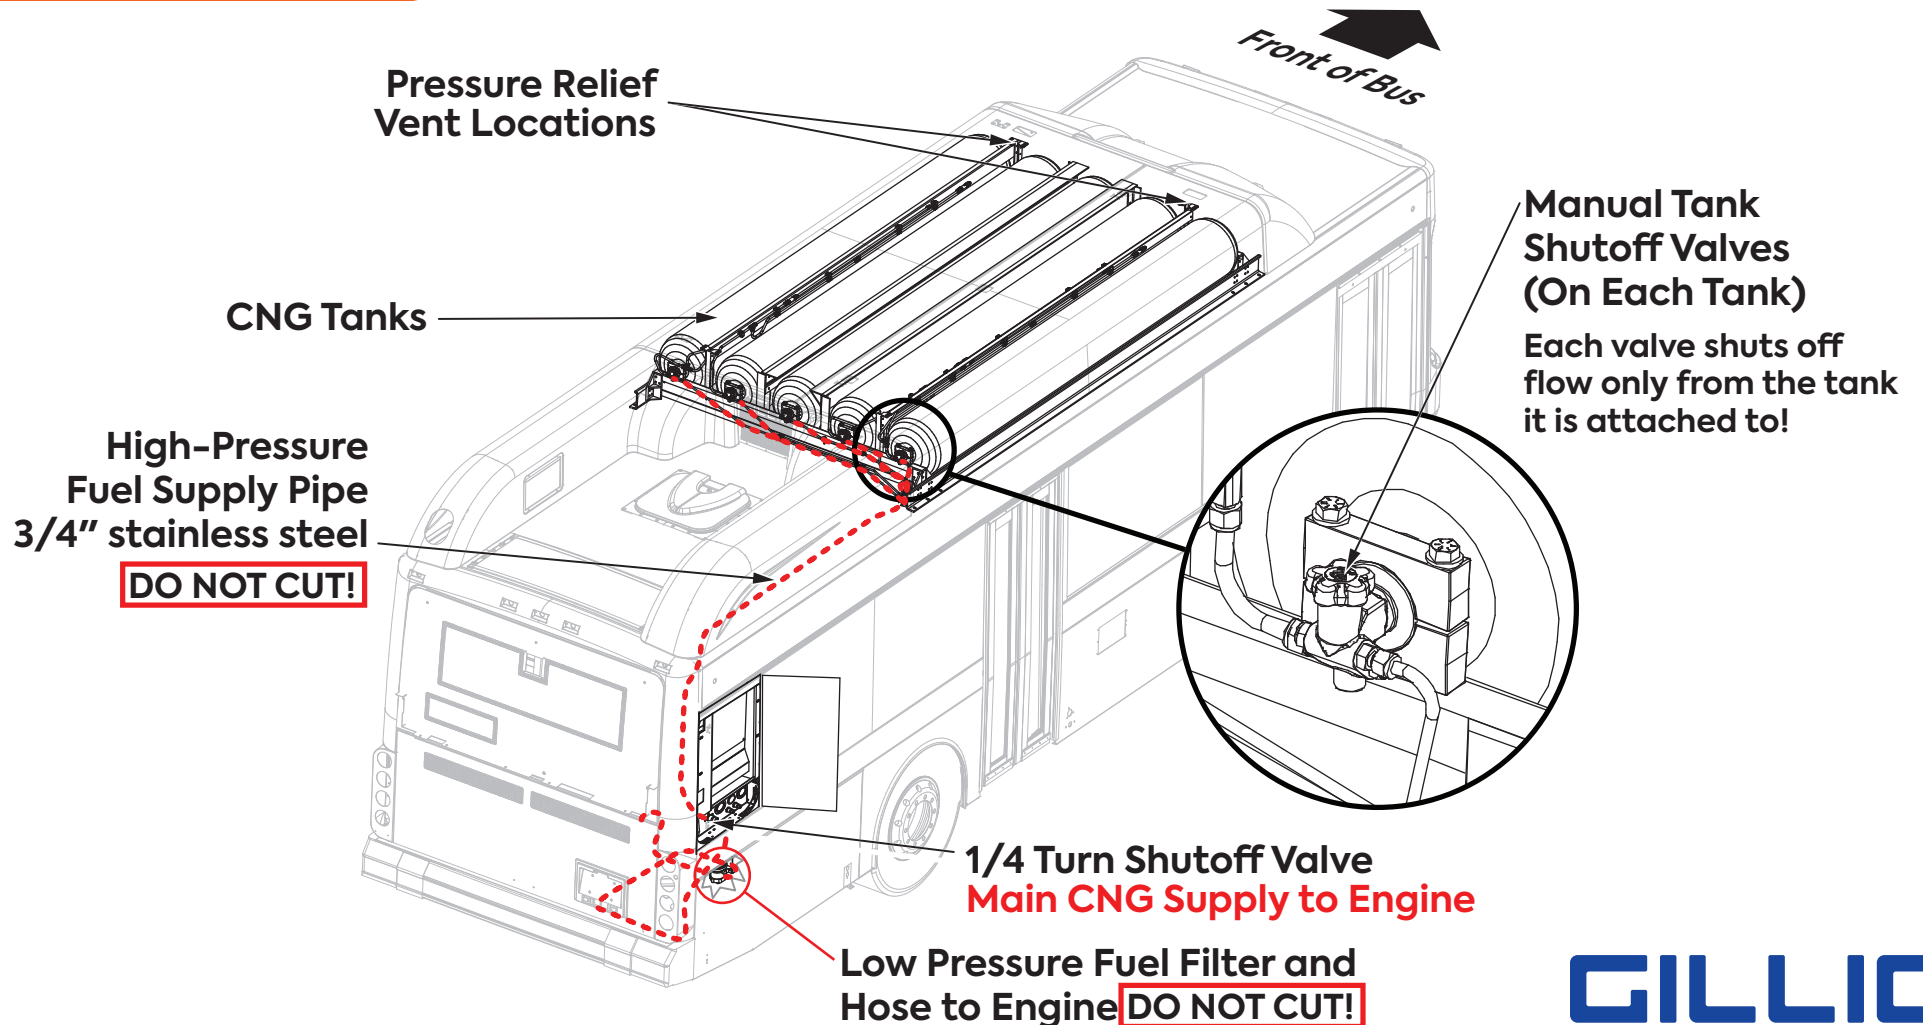

Gas may be present in fuel lines after all valves have been turned off.

WARNING

In the event of a fire: All tanks are equipped with thermal activated pressure relief devices that will vent fuel stored in the tanks. These devices vent fuel upward.
