

Tentative Interim Amendment

NFPA[®] 2112
Standard on Flame-Resistant Garments for
Protection of Industrial Personnel Against Flash Fire
2012 Edition

Reference: 7.1.5.1 and 7.1.5.2

TIA 12-1

(SC 13-3-19/TIA Log #1093)

Pursuant to Section 5 of the NFPA *Regulations Governing the Development of NFPA Standards*, the National Fire Protection Association has issued the following Tentative Interim Amendment to NFPA 2112, *Standard on Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire*, 2012 edition. The TIA was processed by the Technical Committee on Flash Fire Protective Garments, and was issued by the Standards Council on March 7, 2013, with an effective date of March 27, 2013.

A Tentative Interim Amendment is tentative because it has not been processed through the entire standards-making procedures. It is interim because it is effective only between editions of the standard. A TIA automatically becomes a public input of the proponent for the next edition of the standard; as such, it then is subject to all of the procedures of the standards-making process.

1. Delete 7.1.5.1 and replace with the following:

7.1.5.1 Where the flame-resistant garment consists of multiple and separable layers intended to be worn separately, both of the following shall apply:

- (a) Specimen garments consisting of the outer layer only shall be tested.
- (b) Specimen garments consisting of the inner layer or layers only shall be tested.

2. Add new 7.1.5.2 to read as follows:

7.1.5.2 Where the flame-resistant garment consists of multiple layers intended only to be worn together, specimen garments consisting of the outer layer only shall be tested.

Issue Date: March 7, 2013

Effective Date: March 27, 2013
