

Public Comment No. 1-NFPA 1082-2021 [Section No. A.1.2.6]

A.1.2.6 [🔗](#)

The committee recognizes the importance of formal and continuing education and training programs to ensure that personnel have maintained and updated the necessary skills and knowledge for the level or position of qualification. Continuing education and training programs can be developed or administered by local, state, provincial, or federal agencies as well as by professional associations and accredited institutions of higher education. The methods of learning would include areas of technology, refresher training, skills practices, and knowledge application to standards. The subject matter should directly relate to the requirements of this standard.

Additional Proposed Changes

<u>File Name</u>	<u>Description</u>	<u>Approved</u>

Statement of Problem and Substantiation for Public Comment

The Following CC Note No. 5 appeared in the First Draft Report.

The Correlating Committee for Professional Qualifications is directing each Professional Qualification Technical Committee to incorporate the concept of maintaining proficiency as outlined in the attachment. The Technical Committee should customize the factors associated with maintaining proficiency specific to each of the positions being considered in the standard.

Committee Statement

Committee Action: Rejected but see related SR

Resolution: [SR-1-NFPA 1082-2021](#)

Statement: Maintaining proficiency is important. The committee wishes to maintain the current language in the standard and add the new language proposed by the CC for additional clarity. The new language does not entail a change to the existing requirements, but add clarity to the enforcement of existing requirements.
