Pursuant to Section 5 of the NFPA Regulations Governing the Development of NFPA Standards, the National Fire Protection Association has issued the following Tentative Interim Amendment to NFPA 409, Standard on Aircraft Hangars, 2016 edition. The TIA was processed by the Technical Committee on Airport Facilities, and was issued by the Standards Council on April 6, 2016, with an effective date of April 26, 2016.

A Tentative Interim Amendment is tentative because it has not been processed through the entire standards-making procedures. It is interim because it is effective only between editions of the standard. A TIA automatically becomes a public input of the proponent for the next edition of the standard; as such, it then is subject to all of the procedures of the standards-making process.

1. Revise section 7.3.2 to read as follows:

   7.3.2 A reserve supply of foam concentrate shall be provided in accordance with 4.3.2.5.2 of NFPA 11.
