STAY IN THE AIR – STAY PRODUCTIVE.

Victaulic now offers a solution that eliminates sprinkler prep work on the ground and keeps installers in the air. But initial installation isn’t the only thing that determines productivity, it’s the rework required as well. Utilizing mechanical connections where possible instead of threaded connections ensures less down time from leaks.

Benefits

- **Zero Sprinkler Prep** Eliminate Tape and Dope
- **Eliminate Sprinkler Wrenches** Reducing Injury From Repeated Strenuous Motion
- **Visual Inspection of Proper Installation** No Additional Torque for Frame Alignment
- **Standardize On 1” FireLock IGS Outlets** Coupling Transitions to 1”, ¾”, and ½” Sprinklers
