Exhibit Height & Display Regulations
In-Line & Linear Exhibits

Definition:
In-line or linear exhibits are generally arranged in a straight line and have neighboring exhibitors on the left and/or right of their exhibit space leaving one side of their exhibit space exposed to the aisle.

Use of Space:
Display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors.

Space rental includes:
Standard 8ft drape back wall. The drape will be a combination of red and black. 3ft side rails will be black. A 7”x44” company identification sign (Company name will be listed as it appears on your space contract/invoice). The hall is NOT carpeted, carpet or floor covering is required, see exhibit display & event regulations for more information.

Height:
All display fixtures and components including graphics and identification signs are allowed a maximum height of 8ft only in the rear half (measuring 5 ft from the back wall) of the exhibit space. A maximum height of 4 ft is allowed in the front half of the exhibit space (measuring 5 ft from the aisle). [See image A below]

Corner In-line or Linear Exhibit Spaces:
A corner exhibit is an in-line/linear exhibit at the end of a series of exhibits with exposure to intersecting aisles on two sides. All guidelines for in-line/linear exhibits apply.

10x30’s or larger In-line Exhibit Spaces:
When three or more in-line or linear exhibit spaces are used in combination to create a single exhibit space, the 4ft height limitation only applies to the portion of the exhibit which is within 10ft of an adjoining exhibit or corner. [See image B below]

All exhibit spaces must adhere to display regulations:
Including ADA, demonstrations, lighting, sound, structural integrity, and storage.
