As a mission-based organization, it is incumbent upon us to provide you with the tools that you need to help ensure that people and property are protected from harm everywhere.

We have heard from you that a physical code book or a static digital version of a book are not the best means to help solve problems on a real-time basis. You want information faster, on different devices—phones, tablets, and laptops—and in different languages. We also heard that you don’t want only the text of a code or standard. You want context and insights to help understand problems and develop solutions.

Our shift to fulfill this need is clearly underway. You are increasingly seeing us deliver information in different and more digital ways. That is just the beginning. With increasing speed, technology is changing the way we all work, and our business is changing too... for the better. NFPA® is striving to be more global, more connected, and more digital.

We recently announced the launch of NFPA LiNK™. NFPA LiNK™ is a major component in how we will fundamentally transform the way we deliver information going forward. NFPA LiNK™, now in its infancy, will deliver intuitive, seamless, situational and code-based information on demand. Once at full development, NFPA LiNK™ will learn as you use it and adapt its content to fit your needs. You will have greater access to a wider array of material than you have today, and you will have it at your fingertips.

Effective starting with 2020 releases, NFPA will no longer offer PDFs for new editions of codes and standards, handbooks, or other reference titles such as pocket guides, including new titles available through the National Fire Codes® Subscription Service (NFCCSS™). Titles previously published in PDF will remain in-market and will still be available in the digital access version of NFCCSS.

Our chief objective in shifting the way we deliver content to you is to help all of you do your job better. These changes help our mission in other ways, too. NFPA is a self-funded non-profit. This means that all the critical mission work we do—facilitating the development of codes and standards, research, public education, and wildfire mitigation outreach—relies on NFPA generating revenue from the sale of codes and standards, training materials, and the certifications we create. We have seen, with greater frequency, the distribution of unauthorized copies of NFPA codes and standards. Put together with poor quality and often riddled with inaccurate and misleading information, these unauthorized copies can compromise our fundamental mission of safety and put us all at risk. Couple this with ongoing challenges to copyright protection, and it is time for us to do our work differently. In doing so we will maintain our essential collaboration with all of you to make the world a safer place.

Sincerely,

Jim Pauley
President and CEO, NFPA

THE TRAINING YOU NEED.
THE SAFETY YOU REQUIRE.

ONLINE AND VIRTUAL CLASSROOM COURSES FROM THE CONVENIENCE OF YOUR COMPUTER.
NFPA® is dedicated to meeting your professional development needs during the COVID-19 pandemic. We provide a variety of solutions to ensure you or your team has access to top-quality, in-depth, virtual instruction and continuing education units (CEUs).

LEARN AT YOUR OWN PACE VIA OUR ONLINE TRAINING COURSES.
Complete the training when and where you choose from your laptop or PC. Choose from an array of engaging and high-impact online training programs for individual students or groups.

REGISTER FOR OUR NEWLY LAUNCHED LIVE VIRTUAL TRAINING CLASSES.
NFPA is now offering expert instructor-led safety training online. Attend classes in real time over the Internet for immersive, interactive learning that mirrors the experience of being there in person. Courses are limited in size and specially designed to engage students online.

Learn more about NFPA online and live virtual training, and discover which courses are right for you at nfpa.org/livevirtualtraining.

To learn how your team can benefit from NFPA training, call the NFPA sales team at 877-336-3280 or email us at grouptraining@nfpa.org.

JOIN OUR MEMBERSHIP COMMUNITY. STARTING AT $175/YEAR.
For all of us, membership means having practical access to codes, solutions, and resources every day. More importantly, it means expanding our networks, sharing knowledge, and having meaningful discussions with like-minded experts passionate about keeping our communities safe. Membership means working together, learning together, and making more progress toward safety for all.

Becoming an NFPA® member shows your commitment to helping save lives and reducing loss around the globe with information, knowledge, and passion. It’s a big world. Let’s protect it together.

VISIT nfpa.org/joinnow to join today!

What NFPA provides for me is that networking group, that bigger scope of things, and the opportunities to get to other places in my career.
— Monica Colby, Fire and Life Safety Educator NFPA Member Since 2009

It’s about having more input into the industry, being able to get feedback from others, and seeing other people’s ideas of how code should be changed. It helps in understanding everybody’s viewpoint.
— Noel T. Hernberger, Compliance Officer NFPA Member Since 2016

WHAT MEMBERS ARE SAYING
Help transform electrical safety.

Presenting solutions that help transform your knowledge.

Evolving technology and policy are constantly changing the electrical industry. Keep your knowledge and skills up to date through our NFPA Electrical Solutions. Stay on top of the NEC®, exploring subjects such as power over Ethernet and emergency service disconnects. Be immersed in topics such as electrical safety in the workplace through new training, certification, and online learning. Tap into the networking power of NFPA Xchange™, sharing knowledge with fellow professionals. In an industry that's transforming, NFPA Electrical Solutions help you transform with it.

NFPA 70E
In the workplace, safety is priority #1. Give your team the know-how that can help keep them safe from shock, arc flash, and other electrical hazards with NFPA 70E®, Standard for Electrical Safety in the Workplace®. This is the quintessential resource for helping companies and employees reduce exposure to risks and reduce occupational injuries and fatalities.

NFPA 78 & NFPA 1078
In the ever-changing and growing electrical industry, it's critical to stay informed on the latest information and criteria for performing your job safely and effectively. To meet the modern demands of electrical inspectors, NFPA is proud to introduce two new, essential publications for professionals responsible for performing inspections.

NEW 2021 NFPA 70E, Handbook for Electrical Safety in the Workplace
The handbook provides the full standard text along with expert commentary. Included in this edition are the Worker Alert feature, highlighting crucial safety information, and the OSHA Connection feature, correlating OSHA’s electrical safety standards with certain NFPA 70E requirements.

$175.00
BPN-70EHB21

NEW 2021 NFPA 70E, Standard for Electrical Safety in the Workplace
Assess electrical risks, determine hazards, select PPE, establish an electrically safe working condition, and help avoid tragedies with NFPA 70E. Fully updated for 2021.

$79.00
BPN-70E21

NEW 2020 NFPA 78, Guide on Electrical Inspections
Access a complete overview and instruction in cutting-edge electrical inspection best practices with the all-new NFPA 78, Guide on Electrical Inspections, 2020 edition.

$52.00

I left the NFPA 70E, Electrical Safety in the Workplace training with a great understanding of how to practice safety. My team will be better served with the knowledge I can share.

— Brett Novakowski, Production Supervisor

ELECTRICAL TRAINING & CERTIFICATIONS

The world of electrical work is fast-paced and always evolving, with new technologies, materials, and safety needs arising all the time. Keeping up means having the right knowledge and skills to stay compliant, gain credibility, and do the job right the first time; or for employers, to keep your business operating safely and efficiently at a high level. The quality and safety of electrical work impact productivity, continuity of business, and the well-being of people and property. Having the most current knowledge and being able to prove your skill can put you firmly in control of it all.

NFPA training helps you stay compliant and up to date, while certifications validate your professional expertise. Every program is built on the same key information we use to develop electrical codes and standards, and our expert instructors can extensively explore core topics, giving you a unique depth of understanding and knowledge.

To learn how your team can benefit from NFPA training, call the NFPA sales team at 877-336-3280 or email us at grouptraining@nfpa.org.

NAVIGATE THE FUTURE WITH CONFIDENCE.
New Comprehensive Online Certification Training from NFPA.
NFPA 101
NFPA 101®, Life Safety Code®, is the most widely referenced source for occupant safety strategies based on construction, protection, and occupancy features in all stages of a building life cycle. Relevant to life safety in both new and existing structures, NFPA 101 covers everything from means of egress and features of fire protection to hazardous materials emergencies, injuries from falls, and emergency communications.

NFPA 99
It is critical to take appropriate measures to help protect patients, staff, and visitors from dangers and ensure health care safety. NFPA 99, Health Care Facilities Code, offers the information contractors, engineers, facility managers, security personnel, inspectors, and AHJs need to stay current with code requirements and help ensure facility compliance in hospitals, nursing homes, limited care settings, and other types of health care facilities.

Life safety code violations can result in fatal fires. Help ensure proper application of NFPA 101 with the full code text and updated commentary for 2021. Only the handbook shows the content of new and existing occupancy chapters side by side, for easy comparison and implementation. Coming soon.

$209.00  BPN-101HB21

Occupant safety from fire demands compliance with NFPA 101 requirements for egress, fire alarms, sprinklers, lighting, fire and smoke barriers, and special hazard protection. The 2021 edition features updated sprinkler requirements for existing high-rise buildings containing ambulatory health care, business, industrial, or apartment building occupancies. Coming soon.

$122.50  BPN-10121

Help eliminate knowledge gaps and avoid mistakes that threaten the safety of patients, staff, and facilities with the essential companion book to the Health Care Facilities Code. The handbook includes the complete text of the 2021 edition along with insightful commentary, explanations, practical guidance, full-color visual learning aids, and other resources for better understanding and application of NFPA 99. Coming soon.

$175.00  BPN-99HB21

NEW 2021 NFPA 99, Health Care Facilities Code
Help keep your facility up-to-code and patients and staff safer with the latest edition of NFPA 99. This vital code includes comprehensive requirements for installation, performance, safe practices, and inspection, testing, and maintenance for health care facilities, materials, equipment, and appliances. Revised for 2021, this document features added sections and requirements, amended procedures, and other significant changes. Coming soon.

$82.00  BPN-9921

FOR THE FULL SUITE OF BUILDING AND LIFE SAFETY PRODUCTS, VISIT SHOP.NFPA.ORG/BLS-2020
2018 NFPA 1, Fire Code Handbook
NFPA 1 references more than 130 other NFPA codes and standards and includes extracted provisions directly from 50 others. The Fire Code Handbook provides the complete text of the code along with expert commentary and guidance to help ensure new and existing buildings are fire-safe and compliant.

$187.50
BPN-1HB18

NEW 2021 NFPA 1, Fire Code
A benefit to anyone with responsibilities for life safety, building safety, and hazardous materials, NFPA 1 offers comprehensive, integrated fire code regulations and hazard management requirements with extracts and references from more than 130 NFPA codes and standards. Coming soon.

$109.00
BPN-121

2018 Medical Gas and Vacuum Systems Handbook
Install medical gas and vacuum systems correctly, troubleshoot problems, answer questions, and train to the latest NFPA 99 requirements using this handbook.

Our staff really benefited from the Life Safety Code Essentials class and the instructor’s explanations of examples and why the code has progressed. The class was captivating and fun.

— Gary Mutschler, Architect

BUILDING AND LIFE SAFETY TRAINING & CERTIFICATIONS

When it’s your job to ensure life safety compliance for an entire facility, you can’t afford to compromise. That’s why it’s vital to get the best training and confirm your ability to understand and apply the codes and standards in identifying and managing hazards, avoiding fines, and making sure everyone gets out safe in the case of an emergency.

NFPA training and certifications help you understand and apply vital concepts in the field and confirm professional aptitude. They are developed by recognized subject matter experts capable of delving into essential topics to achieve deep insight and more thorough comprehension.

To learn how your team can benefit from NFPA training, call the NFPA sales team at 877-336-3280 or email us at grouptraining@nfpa.org.

NFPA 54
NFPA 54, *National Fuel Gas Code*, is the American National Standard (ANSI Z223.1) that applies to the installation of fuel gas piping systems, equipment, and appliances that are supplied with natural gas, manufactured gas, liquefied petroleum gas (LP-Gas) in the vapor phase, and other gas–air mixtures in the flammable range.

NFPA 58
As the liquefied petroleum gas (LP-Gas) industry continues to evolve and expand rapidly, it’s vital to stay up to date with the latest requirements and protocols for safer installations, transfers, storage, and use. The newly revised 2020 edition of NFPA 58 provides the cutting-edge information you need to be ready for the challenges of modern LP-Gas hazards.

**NEW 2021 NFPA 54, National Fuel Gas Code Handbook**
In addition to the complete text of the National Fuel Gas Code, the handbook’s commentary from recognized authorities in the field gives you the background, rationale, and practical tips you need to understand and apply the code. Coming soon.

$169.00  BPN-54HB21

**NEW 2021 NFPA 54, National Fuel Gas Code**
An industry-accepted standard, this edition of NFPA 54 provides updated requirements for the design, installation, operation, maintenance, purging, and inspection of gas piping, equipment, accessories, and appliances supplied with fuel gas.

$73.00  BPN-5421

**NEW 2020 NFPA 58, LP-Gas Code Handbook**
The only publication for assisting in understanding and applying NFPA 58, this essential companion book provides complete code content along with expert commentary, answers, advice, support, and visual aids for improved safety and job performance.

$169.00  BPN-58HB20

**NEW 2020 NFPA 58, Liquefied Petroleum Gas Code**
The benchmark for LP-Gas work and usage in homes, businesses, and industrial settings includes the most current industry requirements along with significant changes and additions to account for the development of new technologies and procedures.

$73.00  BPN-5820

INDUSTRIAL HAZARDS

NFPA members save 10%
When an active shooter or hostile event occurs, it’s imperative that everyone involved in responding to the crisis—from first responders, to the hospital, to the broader community—act as one. NFPA 3000TM (PS), Standard for an Active Shooter/Hostile Event Response (ASHER) Program, guides communities in creating an integrated, unified plan of response to hostile events.

NFPA 3000™ (PS) Online Training and Specialist Badge, $249.99

The new Plan, Respond, Recover Program Specialist Online Training Series will teach you to prepare others to plan for, respond to, and recover from hostile events with confidence and control. The 2021 online training series will be available in October. Learn more about NFPA 3000™ (PS) and associated products at nfpa.org/nfpa3000

INTRODUCING NFPA 1300:
A NEW STANDARD FOR SAFER COMMUNITIES.

More and more, fire departments are taking the lead in helping minimize community hazards before they become emergencies. NFPA 1300, Standard on Community Risk Assessment and Community Risk Reduction Plan Development, is a powerful tool that not only defines community risk reduction (CRR) but also outlines how to assess and address risks, including:

• Collecting data
• Creating and implementing an action plan
• Following an all-hazards approach
• Building community relationships

To get NFPA 1300 today, call 1-800-344-3555 or visit nfpa.org/1300

INDUSTRIAL HAZARDS TRAINING

Industrial hazards—explosive or combustible dusts, working or inspecting in confined spaces, and associated threats of illness, injury, or damage—lurk in many working environments. Staying up to date on the latest procedures and requirements for these situations can help ensure your team stays safe, your organization remains compliant, and your well-honed skills stay in high demand.

NFPA training for industrial hazards professionals is a valuable resource for expanding your knowledge and skills and advancing your career. Receive in-depth instruction in essential safety practices from the experts who help develop the codes and standards and validate your understanding and expertise in your field. Our programs are designed to help you put your best foot forward in every circumstance and gain recognition among employers, personnel, and peers.

To learn how your team can benefit from NFPA training, call the NFPA sales team at 877-336-3280 or email us at grouptraining@nfpa.org.

The work of building a safer world is far from done. That’s why each year we gather at NFPA Conference and Expo® to discuss emerging issues and the latest knowledge to solve them. Who knows what possibilities will arise for 2021—what new technologies, research, and challenges we’ll face as a community? The future of safety energizes us, and we’re excited to continue building on the progress we’re making together.

MARK YOUR CALENDAR FOR JUNE 22–25, 2021
